Example (1)

Assumptions:
Life Assured : Male, Non-Smoker, Age 30 years next birthday
Basic Sum Assured : RM100K
CriticalCare Rider Sum Assured : RM100K
CI - Heart Attack occurs at policy year 10

Assessment:

- Upon occurrence of a valid CI claim for Heart Attack at policy year 10, RM100K will be payable under this rider.
- The basic sum assured will be fully accelerated. Hence, the basic plan and rider will be terminated.

Example (2)

Assumptions:
Life Assured : Male, Non-Smoker, Age 30 years next birthday
Basic Sum Assured : RM100K
CriticalCare Rider Sum Assured : RM100K
CI - Angioplasty & Other Invasive Treatments for Coronary Artery Disease occurs at policy year 10.

Assessment:

- Upon occurrence of a valid CI claim for Angioplasty & Other Invasive Treatments for Coronary Artery Disease at policy year 10, RM10K* will be payable under this rider.
  **Minimum (10% of rider sum assured, RM25K) = Minimum (10%*RM100K, RM25K) = RM10K*
- Both the basic sum assured and rider sum assured (for other CI claim) will be reduced to RM90K and the policy will continue to be in force. This means if there is other CI claim subsequently, the payout would be RM90K.
- The premium paid for the basic plan will be based on the reduced basic sum assured (RM90K) whereas the premium paid for the rider will be based on the original rider sum assured (RM100K), despite the CI claim for Angioplasty & Other Invasive Treatments for Coronary Artery Disease at policy year 10.

Example (3):

Life Assured : 2 years NB on policy anniversary preceding occurrence of CI
Basic Sum Assured : RM100K
CriticalCare Rider Sum Assured : RM100K
Assessment:
Upon occurrence of a valid CI claim, a child lien shall apply and RM40K (40% x RM100K) will be payable under this rider. However, the basic sum assured will be reduced by RM100K (CriticalCare Rider Sum Assured). Thus, both the rider and basic plan will be terminated.

Example (4):
Assumptions:
Life Assured : 1 year NB on policy anniversary preceding occurrence of CI
Basic Sum Assured : RM100K
CriticalCare Rider Sum Assured : RM100K

Assessment:
Upon occurrence of a valid CI claim for Angioplasty & Other Invasive Treatments for Coronary Artery Disease at policy year 2 (age 2 NB),

- Minimum (10%*RM100K, RM25K)*40% = RM4,000
  Note: 40% is child lien for Age 2 next birthday
- Both the basic sum assured and rider sum assured (for other CI claim) will be reduced based on the amount before applying the child lien (10% of RM100k = RM10k)
- Remaining coverage for basic and CriticalCare Rider = RM90,000
- Premium paid for basic plan (after claim) will be based on the reduced sum assured of RM90,000
- Premium paid for CriticalCare Rider (after claim) will be based on the original sum assured of RM100,000
