Smart Revive Max Lite ***(Plan Code: 0568)***

(Regular Premium Investment-Linked Insurance Plan)

Plan Name : Smart Revive Max Lite
Plan Code : 0568
Product Abbreviation : SRML
Launch Date : 8 June 2026

PLAN DESCRIPTION

a) This product is a limited pay investment-linked insurance policy with access to professionally managed Unit Funds with the benefit of the life insurance cover.
b) This plan provides coverage up to age 70, 80 and 90 years next birthday.
c) Premiums paid are used to purchase units in the Unit Fund(s). The policy value of this plan will vary directly with the performance of the Unit Fund(s).
d) Illustration Rule: This rule means any illustration is only quotable when Cash Value projected under the best estimate assumptions* is able to sustain (positive figures) until maturity. This is a requirement under then Investment Linked Business (BNMRHPD 029-36 Investment-linked Business).
*Best estimate assumptions are reflective of the actual performance of the underlying funds selected by the policy owner. In the event that the policy owner chooses multiple funds, the weighted fund growth based on the percentage of allocation of premiums into the respective funds will be used.
e) There'll be no GSR for standard case at NB stage. For substandard cases; GSR loading will be applicable for the case that fulfils the new GSR rules under item **Premium v**.
f) The policy will lapse if the Total Investment Value equals to zero or below except when NLG is in effect.

BENEFITS

1. Death Benefit (Due to all causes)

Upon death of the Life Assured, the Company will pay the Basic Sum Assured (BSA) + Additional Sum Assured (ASA) or Total Investment Value (TIV), whichever is higher. TIV is calculated at NAV at the next Valuation Date.

In the event death occurs before age of 5, the Company will pay 100% of TIV or the following percentage of BSA, whichever is higher.

Age Next Birthday of the Life Assured preceding Death	Death Benefit after Lien
1	20% of the BSA
2	40% of the BSA
3	60% of the BSA
4	80% of the BSA

Full life cover will be given from age 5 years next birthday.

2. Total and Permanent Disability (TPD) Benefit

a) If TIV > BSA+ASA, 100% TIV is payable in one lump sum (or be retained with the Company).
There may be circumstances where the TIV is retained upon TPD claim for the purpose of policy sustainability, e.g. for CI rider, waiver rider or other riders to continue.
b) If TIV < BSA+ASA, only TIV is payable in one lump sum. Excess Sum Assured not exceeding RM10,000,000 shall be paid in 3 annual instalments with the first being a lump sum of the Excess Sum Assured or RM2,000,000 whichever is lesser, and the balance of the Excess Sum Assured, will be payable in two equal, annual instalments of maximum RM4,000,000 each.

There may be circumstances where the TIV is retained upon TPD claim for the purpose of policy sustainability, e.g. for CI rider, waiver rider or other riders to continue.

c) Parts (a) and (b) only applies for TPD occurring prior to the policy anniversary on which the Life Assured attains age 75 next birthday.
d) The TPD cover for child below age 5 next birthday is subject to the lien as per Death Benefit. Full TPD cover will be given from age 5 next birthday onwards.
e) The maximum TPD Benefit payable under this and all policies and riders on the same life is RM10,000,000 per life (excluding group policies).

Note: Excess Sum Assured = BSA+ASA minus TIV.

3. Admission Event Benefit

While the policy is inforce, in the event that Life Assured is admitted to Intensive Care Unit (ICU) for at least 5 consecutive days within the policy term and prior to policy anniversary of age 80 years next birthday, the Company will pay a 2% of BSA, where BSA is the lower of the initial sum assured or current sum assured upon occurrence of Admission Event Benefit.

Admission Event Benefit will be payable in one lump sum and is subject to a maximum payout of RM500,000 per life (aggregate under all Smart Critical Relief (U190), Smart Critical Relief Campaign (U234), GREAT Critical Care Relief (0550) policies and any future plans that identify by the Company).

Notes:

a) Child lien shall apply for child before age 5 years next birthday.
b) The Admission Event Benefit shall only admit once.
c) Any claim on Admission Event Benefit will NOT accelerate the BSA.
d) If the policy remains inforce after the claim on basic plan or any supplementary rider that accelerated the basic sum assured, Admission Event Benefit coverage shall continue.
e) A 30-day waiting period from risk commencement date or the date of any reinstatement, whichever is later shall apply for the Admission Event Benefit; except for accidental cause.
f) A 120-day waiting period from risk commencement date or the date of any reinstatement, whichever is later shall apply for Admission Event Benefit due to specified illnesses.
g) A 14-day survival period from the first day of admission shall apply for this Admission Event Benefit.

4. Additional Sum Assured (ASA)

a) The Additional Sum Assured will be payable at death or TPD is:

MIN(5% x ROUNDDOWN(completed policy years at death or TPD/10,0),30%) x Min (Current Sum Assured, Initial Sum Assured).

Note:
- Initial Sum Assured refers to Basic Sum Assured at policy commencement.
- Current Sum Assured refers to Basic Sum Assured at death or TPD.

b) The ASA for child below age 5 next birthday is subject to the lien as per Death Benefit.
c) There are no additional insurance charges for ASA.
d) The Additional Sum Assured is offered to both standard and substandard lives.
e) The ASA does not apply to the IL CI Plus Rider (U374).

Examples (Assuming no child lien for all cases):-

Scenario 1: No change in BSA

Initial Sum Assured = RM300,000. No increase/ decrease in sum assured. Death occurs at 16 years and 3 months.

Total ASA= (5% x RM300,000) x 1 = RM15,000

Total Death Benefit = max(RM300,000 + RM15,000, TIV) = max(RM315,000, TIV)

Scenario 2: Increase in BSA
Initial Sum Assured = RM300,000. Increase in sum assured from RM300,000 to RM400,000 in policy year 2. Death occurs at 17 years and 6 months.
Total ASA = (5% x RM300,000) x 1 = RM15,000
Total Death Benefit = max(RM400,000 + RM15,000, TIV) = max(RM415,000, TIV)

Scenario 3: Decrease in BSA
Initial Sum Assured = RM400,000. Decrease in sum assured from RM400,000 to RM300,000 in policy year 3. Death occurs at 25 years and 8 months.
Total ASA= (5% x RM300,000) x 2 = RM30,000
Total Death Benefit = max(RM300,000 + RM30,000, TIV) = max(RM330,000, TIV)

5. Booster Reward

A percentage (%) of Basic Sum Assured (BSA), where BSA is the lower of the initial sum assured or any subsequent amendment made to the BSA will be credited into the TIV account, subject to the following conditions:

a) the policy is inforce;
b) not more than 5 partial withdrawals are made; and
c) all premiums due are paid-up-to-date.

The percentage (%) of BSA for Booster Reward will vary by coverage term as follows:

Coverage Term	% of Basic Sum Assured
≤ 19	2.0%
20 - 34	4.0%
≥ 35	5.0%

The Booster Reward will be payable based on the entry age as shown below until maturity of the policy.

Entry Age	Booster Reward Payable
≤ 55	Policy anniversary on which the Life Assured attains age 65 next birthday & subsequently every 10 years
56 - 65	Policy anniversary on which the Life Assured attains age 75 next birthday & subsequently every 10 years

6. Maturity Booster

While the policy is inforce, a percentage (%) of Basic Sum Assured (BSA) where BSA is the lower of the initial sum assured or any subsequent amendment made to the BSA; will be payable upon:

a) maturity of the policy; or
b) when death occurs on or after the policy anniversary on which the life assured has attained age 80 years next birthday for coverage term up to age 90.

The Maturity Booster will vary by coverage term as follows:

Coverage Term	% of Basic Sum Assured
≤ 19	2.0%
20 - 34	4.0%
≥ 35	5.0%

Double Maturity Booster will be payable subject to the following conditions:

a) not more than 5 partial withdrawals are made; and
b) all premiums due are paid-up-to-date.

7. Maturity Benefit

The Total Investment Value (TIV) plus Maturity Booster, less indebtedness will be payable upon maturity; if any. TIV is calculated at NAV at the next Valuation Date.

8. Cover Revive

The BSA will bounce back to the amount before the partial withdrawal, subject to a maximum of RM250,000 per life (aggregate under all SRM (0562), SLG (0565), SRML (0568) policies and any future plans that identify by the Company), on the monthly due date on or after 24 months from the partial withdrawal date.

Notes:

i. Within 24 months from the partial withdrawal date, the payout for all benefits, e.g. Death due to all causes, TPD Benefit, Admission Event Benefit, Additional Sum Assured, Booster Reward and Maturity Booster will be calculated based on the reduced BSA after withdrawal.

ii. If the policyholder requested to increase/decrease the BSA within 24 months from the partial withdrawal date, the BSA will not bounce back and remains as the increased/reduced BSA as requested by the policyholder.

iii. Upon any claim on basic policy and supplementary riders on the Life Assured, the BSA will not bounce back.

iv. Upon any claim notification on basic policy and supplementary riders on the Life Assured, Cover Revive will be suspended and resume only if the claim has been rejected or withdrawn.

v. If the Life Assured have multiple SRM (0562), SLG (0565) and SRML (0568) policies; or any future plans that identify by the Company, upon any claim notification or claim admitted under any one of the policies, the Cover Revive feature will be suspended or voided for all these policies under the same Life Assured.

Example:

Scenario 1: Death before the BSA bounce back

BSA = RM300,000, TIV before withdrawal = RM50,000, TIV after withdrawal = RM30,000

Event	Date	BSA	Payout
Risk commencement date	1/1/2027	300,000	
Performed partial withdrawal	1/3/2037	280,000	
Death of Life Assured	1/5/2037	280,000	ASA = (5% x 280,000) x 1 = 14,000 Death Benefit = Max(280,000 + 14,000, 30,000) = RM294,000

Scenario 2: Death after the BSA bounce back

BSA = RM500,000, TIV before withdrawal = RM50,000, TIV after withdrawal = RM30,000

Event	Date	BSA	Payout
Risk commencement date	1/1/2027	300,000	
Performed partial withdrawal	1/3/2037	280,000	
Death of Life Assured	1/4/2039	300,000	ASA = (5% x 300,000) x 1 = 15,000 Death Benefit = Max(300,000 + 15,000, 30,000) = RM315,000

Scenario 3: Decrease in BSA before the BSA bounce back

BSA = RM400,000, TIV before withdrawal = RM50,000, TIV after withdrawal = RM30,000. Policyholder requested to decrease the BSA to RM300,000.

Event	Date	BSA	Payout
Risk commencement date	1/1/2027	400,000	
Performed partial withdrawal	1/3/2037	380,000	
Decrease in BSA	1/4/2037	300,000	
Death of Life Assured	1/5/2039	300,000	ASA = (5% x 300,000) x 1 = 15,000 Death Benefit = Max(300,000 + 15,000, 30,000) = RM315,000

Scenario 4: Increase in BSA before the BSA bounce back

BSA = RM300,000, TIV before withdrawal = RM50,000, TIV after withdrawal = RM30,000. Policyholder requested to increase the BSA to RM400,000.

Event	Date	BSA	Payout
Risk commencement date	1/1/2027	300,000	
Performed partial withdrawal	1/3/2037	280,000	
Increase in BSA	1/4/2037	400,000	
Death of Life Assured	1/5/2039	400,000	ASA = (5% x 300,000) x 1 = 15,000 Death Benefit = Max(400,000 + 15,000, 30,000) = RM415,000

Scenario 5: Multiple partial withdrawals

BSA = RM400,000, TIV before 1st withdrawal = RM300,000, TIV after 1st withdrawal = RM100,000, TIV before 2nd withdrawal = RM100,000, TIV after 2nd withdrawal = RM20,000

Event	Date	BSA	Payout
Risk commencement date	1/1/2027	400,000	
Performed 1st partial withdrawal	10/3/2037	200,000	
Performed 2nd partial withdrawal	10/5/2037	120,000	
1st Cover Revive	1/4/2039	320,000	
2nd Cover Revive	1/6/2039	370,000	BSA will bounce back RM50,000 instead of RM80,000 (2nd partial withdrawal amount performed), due to BSA bounce back amount is capped at RM 250,000 per life (aggregate under all SRM, SLG & SRML policies and any future plans that identify by the Company).
Death of Life Assured	1/7/2039	370,000	ASA = (5% x 370,000) x 1 = 18,500 Death Benefit = Max(370,000 + 18,500, 20,000) = RM388,500

Scenario 6: Multiple partial withdrawals with decrease in BSA

BSA = RM400,000, TIV before 1st withdrawal = RM50,000, TIV after 1st withdrawal = RM30,000, TIV before 2nd withdrawal = RM30,000, TIV after 2nd withdrawal = RM20,000

Event	Date	BSA	Payout
Risk commencement date	1/1/2027	400,000	
Performed 1st partial withdrawal	10/3/2037	380,000	
Decrease in BSA	1/4/2037	300,000	
Performed 2nd partial withdrawal	10/5/2037	290,000	
1st Cover Revive	1/4/2039	290,000	Cover Revive will not kick in as BSA is decreased due to policyholder's request. Hence, the BSA remains.
2nd Cover Revive	1/6/2039	300,000	
Death of Life Assured	1/7/2039	300,000	ASA = (5% x 300,000) x 1 = 15,000 Death Benefit = Max(300,000 + 15,000, 20,000) = RM315,000

Scenario 7: BSA bounce back capping per life for multiple policies

Policyholder purchased 2 policies i.e. SRM and SRML for the same Life Assured as below:

a) Policy 1 (SRM): BSA = RM1,000,000, TIV before withdrawal = RM250,000, TIV after withdrawal = RM50,000
b) Policy 2 (SRML): BSA = RM300,000, TIV before withdrawal = RM150,000, TIV after withdrawal = RM50,000

Policy 1 (SRM):

Event	Date	BSA	Payout
Risk commencement date	1/1/2027	1,000,000	
Performed partial withdrawal	10/3/2037	800,000	
Cover Revive	1/4/2039	1,000,000	
Death of Life Assured	1/7/2039	1,000,000	ASA = (5% x 1,000,000) x 1 = 50,000 Death Benefit = Max(1,000,000 + 50,000, 50,000) = RM1,050,000

Policy 2 (SRML):

Event	Date	BSA	Payout
Risk commencement date	1/1/2027	300,000	
Performed partial withdrawal	1/5/2037	200,000	
Cover Revive	1/5/2039	250,000	BSA will bounce back RM50,000 instead of RM100,000 (partial withdrawal amount performed), due to BSA bounce back amount is capped at RM250,000 per life (aggregate under all SRM, SLG or SRML policies and any future plans

			that identify by the Company).
Death of Life Assured	1/7/2039	250,000	ASA = (5% x 250,000) x 1 = 12,500 Death Benefit = Max(250,000 + 12,500, 50,000) = RM262,500

9. No-lapse Guarantee

There is a 6 years no-lapse guarantee for the first 6 policy years starting from the day the policy is inforce. This means that the policy and its attachable supplementary benefits shall continue to remain inforce even if the TIV becomes zero, subject to the following conditions:

a) Regular premium is payable consistently (Note: for 5-pay, the premium will cease at 5th policy year, it is still qualified for no-lapse guarantee up to 6 years).
b) No premium holiday is allowed.
c) No partial withdrawal is allowed.
d) No reduction or termination of GSR (if any).

When the no-lapse guarantee is in effect, all benefits (after deducting any deficit amount in the TIV) shall be payable upon a valid claim event, given the conditions above are met.

However, the policy will lapse if the TIV becomes zero in any year from the 7th policy year onwards.

Policy Fee and Insurance Charge due after the no-lapse guarantee takes effect will be deducted when
(a) the Budgeted Premium and Great Saver Rider premium (if any) of this Policy is paid; or
(b) the Investment Top-ups is paid
until the Policy Fee and Insurance Charge due are fully paid.

Policy Fee and Insurance Charge due after the no-lapse guarantee takes effect will also be deducted from any benefits payable under this Policy.

NET ASSET VALUE (NAV)

i. NAV

The price at which the policy owner buys the units in a fund and sells the units back to the fund.

ii. Determination of Price

NAV of each fund are determined daily, after the valuation of the assets of that fund.

PREMIUM

i. Premium payment mode

Regular premium, choice of yearly, half-yearly, quarterly and monthly

ii. Premium mode factors

Modal premium is determined before annual premium where the annual premium is M times of the Modal premium.

Mode of Modal Premium	M
Annually	1
Half-yearly	2
Quarterly	4

Monthly	12

iii. Premium Payment Method

- Internet Banking, Credit Card, JomPay, GIRO, ePAY or Cash / Cheque payment via Collecting Bank (over-the-counter, ATM & cheque deposit machine). However, cash and cheque are not allowed for monthly mode of payment.
- Inclusion of GAE upon inception can be paid via credit card.
- SPTU during CS stage is only payable by JomPay.

iv. Advance Premium

APA account is not applicable. Follow existing IL plans' practice, all premium paid will be allocated to the funds as chosen by the policy owner.

v. Great Saver Rider (GSR)

NB Stage:

- Only available for substandard case.

CS Stage:

- During the premium payment term, if customer request to increase premium due to increase of Sum Assured, inclusion of new rider, or simply increase premium without increase of coverage, the additional premium will be treated as GSR.

General rules for GSR (applicable for GSR included at both NB and CS stage):

- GSR premium will follow Budgeted Premium (BuP) in terms of fund selection and payment mode.
- The Annexure applicable is "GSRZ03".
- Customer **is ALLOWED** to amend GSR premium at CS stage. However, if there is any reduction or termination of GSR, the No-lapse Guarantee will no longer be applicable.

vi. Balancer

NB Stage:

Any excess in premium after SAM rule will be treated as Balancer.

Age at Entry	Sum Assured Multiple (SAM) Rule
1 – 16	60
17 – 25	55
26 – 35	50
36 – 45	35
46 – 55	25
56 and above	15

Example:

- Life Assured: 30 ANB, Male Non-smoker
- SAM rule of 50
- Bought SRML with BSA of RM300,000, PPT of 5 years, Coverage Term up to age 80, with RM15,000 premium
- RM6,000 of the premium will be considered as Insurance Premium whereas the remaining RM9,000 will be considered as Balancer.

CS Stage:

For reduction of sum assured, any excess in premium after SAM rule will be treated as Balancer.

Example:

- Life Assured: 30 ANB, Male Non-smoker
- SAM rule of 50
- Bought SRML with BSA of RM400,000, PPT of 5 years, Coverage Term up to age 80, with RM15,000 premium
- At CS stage, reduce sum assured to RM300,000 without reducing BuP
- RM6,000 of the premium will be considered as Insurance Premium whereas the remaining RM9,000 will be considered as Balancer.

vii. Golden Age Enhancer (GAE)

a) A policyholder can include GAE at inception of the policy.
b) The minimum entry age to be eligible for GAE is age 55 next birthday.
c) Minimum GAE amount is one time of BuP and it is fixed at one time of BuP. If inclusion of GAE occurs at policy inception due to failing Illustration Rule, GAE will then be allowed to exceed the amount of BuP.
d) For cases with premium payment mode other than yearly mode, first policy year BuP need not be fulfilled before GAE is payable.

PREMIUM ALLOCATION

i. Insurance Premium

Premium allocation depends on the premium payment term chosen.

Premium Payment Term	Policy Year								
	1	2	3	4	5	6	7	8	>=9
5	86%	86%	86%	96%	96%				100%
10	80%	80%	80%	90%	90%	90%	95%	95%	100%
20	60%	60%	60%	80%	80%	80%	95%	95%	100%

ii. Single Premium Top-Ups / Golden Age Enhancer (GAE) / GSR / Balancer

Allocation Rate: 95%

CHARGES

i. Insurance Charge

- Insurance charges depend on the attained age next birthday, gender, occupation class, medical rating and smoking status, where applicable. The Company may vary these insurance charges at each policy anniversary.
- Insurance charges will be deducted in respect of Net Sum Assured.
  Net Sum Assured = Basic Sum Assured – TIV, subject to minimum of zero
- The monthly insurance charges are calculated as the Net Sum Assured times one twelfth of the risk rates corresponding to the attained age.
- These charges will be deducted by selling units already allocated to the Policy, at the NAV on the next Valuation Date following the due date of the insurance charges.

ii. Policy Fee

A monthly administration fee of RM6 will be deducted by selling units already allocated to the Policy from the policy owner's funds, at the NAV at the next Valuation Date, at the beginning of each policy month.

iii. Fund Management Charge

- A fund management charge will be deducted at each asset valuation before determining the NAV. Unit prices will reflect the deduction.
- The management charge to be deducted is:

$$\frac{t}{250} \times K\%^* \times \text{Value of Fund}$$

where:

t = the number of business days from the preceding Valuation Date to the Current Valuation;

K%* = the percentage charge (subject to the Investment Committee's approval) for the appropriate fund as follows:

Fund	K% *
F17 Lion Enhanced Equity Fund	1.50
F18 Dana Gemilang	1.50
F1 Lion Balanced Fund	1.00
F4 Lion Fixed Income Fund	0.50
F5 Lion Progressive Fund	1.35
F6 Dana Sejati	0.50
F21 Lion Advanced Strategic Fund	1.35
F22 Lion Small Mid Cap Fund	1.40
F26 Lion ASEAN Fund	1.50
F10 Lion US-i Fund	0.75
F11 Lion UK-i Fund	0.75
F12 Lion AU-i Fund	0.75
F27 Lion Equity Global Sustainability Fund	1.50
F28 Lion Physical Gold Fund	0.60

* subject to management changes

- Value of Fund refers to the value of the appropriate fund as determined by the Company.

FLEXIBLE OPTIONS

i. Single Premium Top-Ups (SPTU)

CS Stage:

- After the policy is inforce, SPTU can be included as Investment Top-Up at any time provided that the current year's and all previous years' BuP have been fulfilled.
- Minimum SPTU is RM1,000.
- Any policy changes, i.e. increase SA, rider inclusion after premium payment term, the required premium (based on sustainability test and subject to the min of RM1,000) will be collected as SPTU.

ii. Premium Increment

During Premium Payment Term:

A policyholder can increase the regular BuP subject to the following conditions:

a) Increase in premium will be in the form of GSR and can take effect from the next premium due date subject to the constraints below:

Mode of Payment	Minimum Increment (RM)
Annually	240
Half-yearly	120
Quarterly	60
Monthly	20

b) The policyholder can choose to keep the sum assured unchanged or increase the sum assured to the maximum sum assured (based on sustainability test) allowed.

c) The increase in regular BuP (GSR) during Premium Payment Term (5, 10 or 20; where applicable) is payable up to premium payment term.

Example:
Customer is paying RM20,000 per annual for SRML – 5pay, if he request to increase premium to RM20,800 at the end of 2nd year, the extra premium of RM800 will be treated at GSR, with GSR allocation rate of 95%, from 3rd to 5th years.

After Premium Payment Term:
Premium Increment after Premium Payment Term due to policy changes i.e. increase SA, rider inclusion, the required premium (based on sustainability test and subject to the min of RM1,000) will be collected as SPTU.

iii. Decrease in Premium

A policy owner can decrease the regular premium subject to the following conditions:

a) Decrease in premium can take effect from the next premium due date.
b) For policy amendments (i.e amendment on the premium or sum assured) after policy is in force, agent will use ILP Alteration Calculator to check for premium sufficiency.

Mode of Payment	Minimum Premium after the Decrease (RM)		
	5-Pay	10-Pay	20-Pay
Annually	1,500	1,500	1,200
Half-yearly	750	750	600
Quarterly	375	375	300
Monthly	125	125	100

iv. Partial Withdrawal

Monies can be withdrawn by selling some of the units at the NAV in one or more of the invested funds subject to the following conditions:

a) The minimum amount for partial withdrawal is RM 1,000.
b) The aggregate value of the remaining units in all funds must be at least RM1,000.
c) For partial withdrawal, BSA will be reduced by the amount withdrawn. If the BSA is reduced to an amount lower than the minimum SA of RM6,000, the BSA will be set to RM6,000.
d) The BSA will bounce back to the amount before withdrawal, on the monthly due date on or after 24 months from the partial withdrawal date.

Example 1:
A policy with BSA=RM300,000, TIV =RM309,000, customer requested to exercise partial withdrawal of RM308,000 and thus, the BSA is reduced to an amount lower than RM6,000. By following rules (c) above, the BSA for this policy will be set to RM6,000 after partial withdrawal.

Example 2:
Customer - 30 ANB, Male Non-smoker, BSA=RM300,000, PPT of 20 years, with RM15,000 premium. With SAM rule of 50, RM6,000 of the premium will be considered as Insurance Premium whereas the remaining RM9,000 will be considered as Balancer.

After partial withdrawal of RM100,000, the SA is reduced to RM200,000. If the customer continues to pay RM15,000 premium, RM4,000 of the premium will be considered as Insurance Premium whereas the remaining RM11,000 will be considered as Balancer.

v. Fund Switching

A policy owner can sell units in any one fund at the NAV and purchase units in any of the other funds at the NAV at no charge, at any time after the policy has turned in force. The minimum amount sold to purchase units in another unit fund is RM1,000 per fund. However, if

the fund is less than RM1,000, it can be done provided all the units in that fund are switched. More than one switch can be done at one time and this will be considered as a single switch.

vi. Changing Premium Apportionment

A policyholder can alter the premium apportionment at any time. After the Company receives the alteration request, the next and all future premiums will be apportioned to the Unit Funds in the new proportions subject to the minimum BuP listed in the table below:

Mode of Payment	Minimum Amount Apportionable to Each Fund (RM)
Annually	12
Half-Yearly	6

UNDERWRITING GUIDELINES

i. Minimum/Maximum Sum Assured

Minimum : RM300,000
Maximum : RM499,999

ii. Minimum/Maximum Age at Entry

Minimum : 14 days attained age
Maximum :

Coverage Term	Age Next Birthday
Up to age 70	45
Up to age 80	65
Up to age 90	65

iii. Premium Payment Term

5 years, 10 years, 20 years

Note: Cannot be longer than coverage term

iv. Coverage Term

Up to age 70, 80 and 90 years next birthday.

v. Female Rates / Non-smoker Discount

Rates vary by gender and smoker statuses.

vi. Large Sum Assured Discount (LSAD)

Nil

vii. Non-Medical Limits (NML)

The sum assured of this plan will only aggregate with the plans listed in Table 1 below, where the NML aggregated Sum Assured is applicable within 12 months.

Table 1:

No.	Plan Code	Plan Name
1	0477	Smart Legacy Special
2	0476	Smart Legacy
3	0480	Smart Legacy Max
4	0488	Great 110 Legacy
5	0489	Great 110 Legacy Special
6	0494	SmartProtect Legacy Max
7	0497	SmartProtect Wealth 20
8	0525	SmartProtect Wealth Plus

9	0548	SmartProtect Wealth Max Special
10	0556	SmartProtect Wealth CI Exclusive
11	0537	SmartProtect Wealth Max
12	0562	Smart Revive Max
13	0565	Smart Legacy Global
14	0568	Smart Revive Max Lite
15	U77, U101, U102	Waiver riders attachable to SL / SLM / SPLM / SPW20 / SPWP / SPWM / SRM / SLG / SRML
16	U104	Waiver riders attachable to GL110
17	U140, U374, U176, U189, U190, U234	IL Critical Illness Plus Rider, IL Level Term Rider, Smart Multi Critical Care, Smart Critical Relief and Smart Critical Relief Campaign attachable to SPW20 / SPLM / SPWP / SPWM / SRM / SRML
18	U183, U206	IL Invest Assure Rider and IL Cash Assure Rider attachable to SPW20 / SPLM / SPWM / SRM / SRML

The non-medical limits are listed as follows:

Age Next Birthday	Sum Assured (RM)
14 days to 16	1,500,000
17 to 50	8,000,000
51 to 60	3,000,000
61 to 65	500,000

Note:
If payer/ waiver rider(s) is attached to this plan, the NML calculation will only be counted if the Total Annualized Premium to be waived per life is above RM250,000.

viii. Financial Underwriting Limits

The sum assured of this plan will only aggregate with the plans listed in Table 1 above to determine the financial underwriting requirement.

Sum Assured	Minimum Financial Evidence
Up to RM4,000,000	N/A
RM 4,000,001 – RM6,000,000	• Financial Questionnaire Part II (to be completed by Proposer)
RM6,000,001 and above	• Financial Questionnaire Part II • Certified ITR for the past 2 years

ix. Underwriting for Substandard Life

Follow existing practice.

CHANGES IN SUM ASSURED

Any changes in the sum assured will take effect from the next Insurance Charge due date:

i. Increase in Sum Assured

Allowed up to the maximum sum assured (based on the sustainability test); and subject to underwriting. The increase in premium will be treated as GSR.

As for increase in SA after premium payment term, the ILP Calculator will only enable the SPTU for sustainability calculation.

ii. Decrease in Sum Assured

a) Automatic Reduction

When a partial withdrawal is made, the sum assured will automatically be reduced to the sum assured before the withdrawal less the amount withdrawn within 24 months from the partial withdrawal, subject to the minimum SA of RM6,000. The recalculation of the split of Insurance Premium & Balancer will be done after the reduction of sum assured. After 24 months from the partial withdrawal date, the sum assured will bounce back to the amount before the withdrawal.

b) Voluntary Reduction
Policyholder may voluntarily reduce the sum assured, subject to the minimum sum assured limit of RM300,000.

ALLOWANCE TO VARY CHARGES

The Company may increase the charges for existing policies in specified circumstances, up to specified limits. The charges that are allowed for changing are: *Policy Fee, Fund Management Charge and Insurance Charge Rates.* The Company will give at least 3 months advance notice for any upward revision of the charges. However, for any downward revision of the charges, the Company reserves the right to implement it immediately without giving notice.

ALLOWANCE TO VARY PREMIUM

In the event that the insurance charge of the basic plan or its attaching riders has been revised upwards, the Company may increase the GSR premium to support the increase in insurance charge by giving at least 3 months advance notice.

AGENCY COMPENSATION

Balanced Scorecard (BSC)
Yes. Subject to Balanced Scorecard.

FUNDS

i. Fund Asset Allocation
Policy owner can choose to invest in one or more of:

Local Funds

a) F1 Lion Balanced Fund
A fund which invests in a mixture of equities (ranging from 40% to 60%) and fixed income securities. This fund seeks to provide medium to long-term capital appreciation, with a moderate level of volatility.
Effective 27 July 2026
A fund which invests in a mixture of equities (ranging from 30% to 70%) and fixed income securities. This fund seeks to provide medium to long-term capital appreciation, with a moderate level of volatility.

b) F4 Lion Fixed Income Fund
A fund which invests in fixed income securities, for example government and corporate bonds as well as cash and cash equivalents. This fund seeks to provide consistent return at low levels of volatility. Although the fund invests mainly in Malaysia (40% to 100%), it

may also partially invest in foreign fixed income securities (up to 50%), to enhance the fund's returns.

c) F5 Lion Progressive Fund

A fund which invests in a mixture of equities (ranging from 50% to 90%) and fixed income securities. This fund seeks to provide medium to long-term capital appreciation, with a moderate-to-high level of volatility.

d) F6 Dana Sejati

A fund which invests in Shariah approved fixed income securities, for example government and corporate sukuk as well as Islamic money market papers/deposits. This fund seeks to provide consistent return at low levels of volatility. Although the fund invests mainly in Malaysia (40% to 100%), it may also partially invest in foreign Shariah approved fixed income securities (up to 50%), to enhance the fund's returns.

e) F17 Lion Enhanced Equity Fund

A fund where 80% to 100% of the investments are in equities. This fund seeks to achieve medium to long term capital appreciation. Although the fund invests mainly in Malaysia (50% to 100%), it may also partially invest in companies that have significant business operations in Singapore (up to 25%) and Greater China (Mainland China, Hong Kong, Macau and Taiwan) (up to 25%), if and when necessary, to enhance the fund's returns.

f) F18 Dana Gemilang

A fund where 80% to 100% of the investments are in equities. This fund seeks to achieve medium to long-term capital appreciation. Although the fund invests mainly in Malaysia (50% to 100%), it may also partially invest in companies that have significant business operations in Singapore (up to 25%) and Greater China (Mainland China, Hong Kong, Macau and Taiwan) (up to 25%), if and when necessary, to enhance the fund's returns. The fund only invests in Shariah-approved securities.

g) F21 Lion Advanced Strategic Fund

A fund which invests in a mixture of equities, fixed income securities and money market instruments in Malaysia and companies that have significant business operations in Asia. There is flexibility in asset allocation as this fund may invest solely in fixed income securities or equities. Collective investment schemes such as unit trusts, mutual funds and exchange-traded funds which invest in such underlying asset classes maybe considered. The fund seeks to maximize capital appreciation over the medium to long-term while reducing risks and/or enhancing returns through timely and dynamic switching of asset classes in different markets at any given point in time.

g) F22 Lion Small Mid Cap Fund

A fund where 60% to 100% of investments are in equities with the balance in cash and/or cash equivalents, which may be volatile in the short term. This fund seeks to achieve medium to long-term capital appreciation, investing in Malaysian (50% to 100%) Small and Medium Market Capitalisation ("Small Mid Cap") equities. It may partially invest in foreign Small Mid Cap equities (Asia Pacific excluding Japan region) if and when necessary, to enhance the fund's returns.

h) F26 Lion ASEAN Fund

A fund where 80% to 100% of the investments are in equities. The Fund seeks to maximise capital appreciation over the medium to long-term while reducing risks and/or enhancing returns through timely and dynamic switching of asset classes in ASEAN markets at any given point in time. The balance of the fund's net asset value will be invested in domestic short-term money market instruments including cash. Collective

investment schemes such as unit trusts, mutual funds and exchange-traded funds which invest in such underlying asset classes may be considered.

International Funds

a) F10 Lion US-i Fund

A fund which is passively managed and aims to track the performance of S&P500 over the medium to long term (indexing strategy), which may be volatile in the short term. This fund seeks to provide medium to long-term capital appreciation.

b) F11 Lion UK-i Fund

A fund which is passively managed and aims to track the performance of FTSE100 over the medium to long term (indexing strategy), which may be volatile in the short term. This fund seeks to provide medium to long-term capital appreciation.

c) F12 Lion AU-i Fund

A fund which is passively managed and aims to track the performance of S&P/ASX200 over the medium to long term (indexing strategy), which may be volatile in the short term. This fund seeks to provide medium to long-term capital appreciation.

d) F27 Lion Equity Global Sustainability Fund

A feeder fund that aims to maximize total return through the diversification in global equities market and participation in the dynamic growth of the world capital markets. The fund is also managed in a manner consistent with the principles of Environmental, Social and Governance ("ESG") focused investing.

The fund seeks to gain at least 80% of its investments exposure to equity securities of companies domiciled in, or the main business of which is in, developed countries worldwide. The equity-related securities include financial derivative instruments (FDIs).

The fund may, when determined appropriate, invest in money market instruments (MMIs), deposits and cash. The MMIs may be issued by governments, government agencies, companies and supranationals and may be investment grade, non-investment grade or unrated at the time of purchase.

e) F28 Lion Physical Gold Fund

A feeder fund that aims to seek exposures into Gold investment which is subject to the volatility and risks involved of a physical gold fund.

Note: Policyholders do not have access to physical or in-kind redemption of gold.

ii. Investment Strategy

Policy owner can choose one of the investment strategies: -

With Strategy Package

a) 7 My Choiced Investor Profile
b) 42 Universal
c) 38 Secure
d) 39 Moderately Secure
e) 40 Balanced
f) 41 Dynamic
g) 32 Very Dynamic
h) 33 Secure (Islamic Funds)
i) 34 Moderately Secure (Islamic Funds)
j) 35 Balanced (Islamic Funds)
k) 36 Dynamic (Islamic Funds)
l) 37 Very Dynamic (Islamic Funds)

Without Strategy Package

a) My Choiced

OTHER PRODUCT FEATURES

i. Surrender Values

The cash value of the policy is the total value of all the units in all the funds selected by the policy owner based on the NAV at the Next Valuation Date. Surrender value is subject to the deduction of indebtedness, if any.

ii. Paid-up Values / Extended Term Assurance / Policy Loans / Automatic Premium Loan / Bonus Rate / Option to Purchase New Policy

Not applicable.

iii. Replacement of Policies

Applicable. An agent or agency leader may not receive any compensation with respect to a policy, which replaced another policy within a duration of less than 12 months before or after the original policy is discontinued subject to the current practice.

iv. Nomination/Assignment/Third Party Policy

i. There is no restriction on assigning and this policy can be issued as Third Party policy.
ii. This minimum age at entry for policy owners should be 19 years old next birthday (age limit for life insured is according to the min & max entry age stated in an earlier page).

v. Reinstatement

3 years. Reinstatement is subject to the deduction of any indebtedness to the Company. In the event of any upward revision in the charges, it will be revised from the next policy anniversary falling on or after the revision date or reinstatement date, whichever is later. However, for any downward revision of the charges, the Company reserves the right to implement it immediately without giving notice.

vi. Backdating

Not allowed.

vii. Change in Premium Payment term

Not allowed.

viii. Free-Look Period

Policy owner is allowed to cancel the policy within 15 days. Budgeted Premium (BuP), less medical fees incurred and adjustments to reflect the change in market value of the underlying assets, will be refunded.

Equivalently, the refund is the sum of the: -

a) Total Investment Values of the policy based on the NAV at next valuation date; and
b) The investment values of the units which have been cancelled to pay for insurance charges and policy fee; and
c) The amount of the premiums that have not been allocated;

Less medical expenses incurred for medical examinations, if any.

ix. Conversion at Maturity Privilege (Option to purchase at maturity)

- The policyholder may purchase a level sum assured Endowment or Whole Life policy up to the Net Sum Assured at the expiry/maturity date of this policy but not later than age 80 next birthday. This privilege will only be made available to policies with Standard life at entry age.

- Application to purchase at maturity must be done 30 days before or after the maturity date of this policy.
- Evidence of assurability will be waived when underwriting the Life Assured for the basic death benefit of the new policy. TPD and inclusion of riders such as CI riders will be subject to standard underwriting
- The Company will at its sole and absolute discretion determine the range of Whole Life or Endowment policy for which the Life Assured may apply at the time of exercising the option. The type of product offered may be traditional or investment-linked based on the availability of products at that time, however all the marketing materials & policy contract will remain silent on this as we don't want to create expectation on the type of product available.
-

Minimum / Maximum Sum Assured of the new policy	
Minimum :	Follow the minimum Sum Assured as required by the applicable plan at the time of exercising the option
Maximum:	Net Sum Assured (rounded to the nearest ringgit) of this policy at the time of exercising the option: Net Sum Assured = Sum Assured – TIV If TIV is greater than the Sum Assured at maturity, then this policy will not be entitled for the option. If the Net Sum Assured at maturity is lower than the minimum Sum Assured required for the new plan applied, then this policy will not be entitled for the option. Sum Assured = Basic Sum Assured or any subsequent changes in sum assured.

- Only ONE new policy can be purchased when this option is exercised. In the event where the Net Sum Assured of this policy has exceeded the maximum Sum Assured allowed for the converted policy, the policyholders will only be allowed to purchase one policy with Sum Assured equal to the Maximum Sum Assured of the new policy. This policy will be terminated immediately upon the new policy has taken effect.
- The premium payable on the converted policy will be based on the attained age of the Life Assured at the date of conversion

x. Termination of Premium Payment

Termination of premium payment does not directly result in policy termination.
The policy continues to remain in force as long as the TIV are positive.

xi. Policy Termination

On Monthly Due Dates, if TIV is insufficient to pay the policy fee and insurance charge, the policy will lapse. The lapse date is determined on pro-rated basis.

xiii. Vesting Age

Applicable. Follow existing ILP practice.

RIDERS / SUPPLEMENTARY BENEFITS

Unit Deduction Riders available: -
Hospitalisation and Surgical Benefits:
1) Smart Critical Relief (Plan code: U190)

Smart Revive Max Lite ***(Plan Code: 0568)***

(Regular Premium Investment-Linked Insurance Plan)

Covered Event Benefits:

2) IL Critical Illness Plus Rider* (Plan code: U374)
3) Smart Multi Critical Care (Plan code: U189)

Accident Benefits:

4) IL Accidental Guard Rider (Plan code: U347)

Waiver and Payer Benefits:

5) IL Payer Benefit Extra Rider (Plan code: U103)
6) IL Premium Waiver Extra Rider* (Plan code: U102)

Income Benefits:

7) IL Cash Assure Rider (Plan code: U206)
8) IL Invest Assure Rider (Plan code: U183)

Notes:

i. *This is a compulsory rider attachable to this plan. If the policyholder requested to terminate the rider, the entire policy of SRML will be terminated together with the rider.
ii. Please refer to the agency manual for the above riders for further details.
iii. All riders will automatically terminate when the policy terminates due to any reason.
iv. Waiver and payers benefits coverage term is capped at the basic plan's premium payment term.
v. U374 & U189 can co-exist.
vi. If TIV > Basic Sum Assured (BSA), there is no risk charge applicable for the basic plan, but risk charges for the payer/waiver riders are still applicable.

AGENCY REQUIREMENT

Only agents who have passed the Certificate Examination in Investment-Linked Life Insurance (CEILLI) examination conducted by the Asian Institute of Insurance (AII) or its equivalent are allowed to sell investment-linked life insurance policies.

EXCLUSION

The Company shall refund TIV and Investment Values of the units which have been cancelled to pay for Insurance Charges and policy fees due after the Risk Commencement Date or date of any reinstatement of this Policy, whichever is later, and the amount of premiums that have not been allocated to purchase units in the event of death of the Life Assured which:

1. Resulted from commits suicide within one year from the Risk Commencement Date or date of any reinstatement of this Policy, whichever is later, while sane or insane.

The Company will not be liable to pay any benefit under this policy if TPD of the Life Assured:

1. has existed prior to the risk commencement date of this policy or the date of any reinstatement, whichever is later.
2. is caused directly or indirectly by self-inflicted bodily injuries while sane or insane.
3. is caused by bodily injury sustained as a result of parachuting or sky diving or engaging in aerial flights other than as a crew member or as a fare-paying passenger of a licensed commercial airline operating on a regular scheduled route.
4. is resulted from the Life Assured committing, attempting or provoking an assault or a felony or from any violation of law by Life Assured.
5. is resulted from the Life Assured driving a motor vehicle without possessing a valid driving license. This exclusion will not apply if the Life Assured has an expired license but is not disqualified from holding or obtaining such driving license under any laws, by-laws or regulations.
6. is resulted from war, whether declared or undeclared.

The Company will not be liable for any Admission Event Benefit as a result of, including any of the following whether directly or indirectly:

- pre-existing illness;
- specified illnesses occurring within the first 120 days from the risk commencement date or the date of any reinstatement, whichever is later;
- was caused directly or indirectly by self-inflicted injuries, illnesses or attempted suicide, while sane or insane;
- was resulted from the Life Assured committing, attempting or provoking an assault or a felony or from any violation of law by Life Assured;
- was resulted from the Life Assured driving a motor vehicle without possessing a valid driving license. This exclusion will not apply if the Life Assured has an expired license but is not disqualified from holding or obtaining such driving license under any laws, by-laws or regulations;
- was resulted from war or any act of war, declared or undeclared, criminal or terrorist activities, active duty in any armed forces, direct participation in strikes, riots and civil commotion or insurrection;
- was caused directly or indirectly by the existence of Acquired Immune Deficiency Syndrome (AIDS) or by the presence of any Human Immuno-deficiency Virus (HIV) infection, except for HIV due to blood transfusion and occupationally acquired HIV;
- was resulted from psychological disorders, personality disorders, mental conditions or behavioural disorders, including any addiction or dependence arising from these disorders such as but not limited to gambling or gaming addiction;
- was resulted from alcohol abuse or drug abuse;
- was resulted from treatment aimed at improving appearance, such as cosmetic surgery or any treatment relating to a previous cosmetic treatment;
- treatment undergone overseas except for treatment done in Malaysia, Singapore and Brunei;
- was resulted from pregnancy, child birth (including surgical delivery), miscarriage, abortion and prenatal or postnatal care and surgical, mechanical or chemical contraceptive methods of birth control or treatment pertaining to infertility. Erectile dysfunction and tests or treatment related to impotence or sterilisation;
- was resulted from treatment of sexually-transmitted diseases;
- was resulted from sex-change operations;
- was resulted from experimental or pioneering medical or surgical techniques, medical devices not approved and medical trials for medicinal products whether or not these trials have a clinical trial certificate;
- was resulted from alternative or complementary treatments, including traditional Chinese medicine (TCM) or a stay in any health-care establishment for social or non-medical reasons;
- is resulted from ionising radiation or contamination by radioactivity from any nuclear fuel or nuclear waste from process of nuclear fission or from any nuclear weapons material; or
- was diagnosed due to, directly or indirectly, a congenital defect or disease, which was manifested or was diagnosed before the Life Assured attains the age of 17 years next birthday.
- any medical, physical abnormalities or defects which exist at the time of birth or developed within 6 months from the time of birth.
- if the Life Assured did not survive 14 days from the first day of admission.

Smart Revive Max Lite ***(Plan Code: 0568)***

(Regular Premium Investment-Linked Insurance Plan)

APPENDIX 1 Terminology

a) Budgeted Premium (BuP) = Insurance Premium + Balancer (if any)
which is the annual premium that you want to invest.

b) Indebtedness: shall mean any unpaid policy fee and insurance charge. Any indebtedness insured will be deducted from premium paid and any benefit or claim proceeds payable.

Smart Revive Max Lite ***(Plan Code: 0568)***

(Regular Premium Investment-Linked Insurance Plan)

APPENDIX 2 (Insurance Charges Table)
