*Smart**Protect** Essential 3*
(Plan Code: 0500, 0501 & 0502)
(Regular Premium Investment-Linked Insurance Plan)

Plan Name : SmartProtect Essential 3
Launch Date : 1st July 2019

Plan Code & Product Abbreviation:

Maturity Age	Product Abbreviation	Plan Code
Age 70	SPE3-70	0500
Age 80	SPE3-80	0501
Age 90	SPE3-90	0502

PLAN DESCRIPTION

a) This product is a regular premium investment-linked insurance policy with access to professionally managed Unit Funds with the benefit of the life insurance cover.
b) This plan provides coverage up to age 70, 80 or 90 years next birthday.
c) This plan has built in 10-Year Auto-Extension feature. Upon maturity, the basic plan and its attaching riders will be auto extended to another 10 years until reaching the age of 90 years next birthday. Please refer to Other Product Features viii 10-Year Auto-Extension.
d) Premiums paid are used to purchase units in the Unit Fund(s). The policy value of this plan will vary directly with the performance of the Unit Fund(s).
e) Illustration rule: This rule means any illustration is only quotable when Cash Value projected under the best estimate assumptions* is able to sustain (positive figures) until maturity. This is a requirement under the Investment Linked Business (BNMRHPD 029-36 Investment-linked Business). This rule is built in FPMS and MPOS.

   * Best estimate assumptions are reflective of the actual performance of the underlying funds selected by the policy owner. In the event that the policy owner chooses multiple funds, the weighted fund growth rate based on the percentage of allocation of premiums into the respective funds will be used.

f) There'll be no GSR for standard case, while for substandard cases; GSR loading will be applicable for the case that fulfils the GSR rules under item **Premium v**.
g) The policy will lapse if the Total Investment Value falls to zero or lesser except when NLG is in effect.

BENEFITS

i. Death Benefit

The Basic Sum Assured (BSA), Additional Sum Assured (ASA) plus Total Investment Value (TIV) will be payable upon death. TIV is calculated at NAV at the next Valuation Date.

In the event death occurs before age of 5, 100% of TIV and the following percentage of Basic Sum Assured are payable.

Age next birthday	Death Benefit after Lien
1	20% of the Basic Sum Assured
2	40% of the Basic Sum Assured
3	60% of the Basic Sum Assured
4	80% of the Basic Sum Assured

Full life cover will be given from age 5 years next birthday.

ii. Total and Permanent Disability (TPD) Benefit

1. 100% TIV is payable in one lump sum (or be retained with the Company).
2. The BSA and ASA not exceeding RM10,000,000 shall be paid in 3 annual instalments with the first being a lump sum of the BSA and ASA or RM2,000,000 whichever is lesser, and the balance

of the BSA and ASA (if any), will be payable in two equal annual instalments of maximum RM4,000,000 each.

3. Parts (a) and (b) only applies for TPD occurring prior to the policy anniversary on which the Life Assured attains age 70 next birthday.
4. The TPD cover for child below age 5 next birthday is subject to the lien as per Death Benefit. Full TPD cover will be given from age 5 next birthday onwards.
5. The maximum TPD Benefit payable under this and all policies and riders on the same life, is RM10,000,000 per life (excluding group policies).

iii. Additional Sum Assured (ASA)

a) The Additional Sum Assured payable at death or TPD is:

1% x Min(Current Sum Assured, Initial Sum Assured) x Min (completed policy years at death or TPD, 30 years).

Note:
- Initial Sum Assured refers to BSA at policy commencement.
- Current Sum Assured refers to BSA at death or TPD.
- Basic Sum Assured will stay level throughout whole policy term, unless policyholder choose to increase or decrease sum assured.
- The ASA shall continue after the Auto-Extension of the policy provided total policy years do not exceed 30 years.

b) The ASA for child below age 5 next birthday is subject to the lien as per Death Benefit.
c) There are no additional insurance charges for ASA.
d) The Additional Sum Assured is offered to both standard and substandard lives.
e) If IL CI Benefit Rider (U100) or IL CI Plus Rider (U140) is attached, the ASA does not apply to IL CI Benefit Rider or IL CI Plus Rider.

Examples:-

Scenario 1:
Initial Sum Assured = RM100,000. No increase/ decrease in sum assured. Death occurs at 4 years and 3 months.
Total ASA = (1% x RM100,000)x4 = RM4,000
Total Death Benefit = RM100,000 + RM4,000 + TIV = RM104,000 + TIV

Scenario 2:
Initial Sum Assured = RM100,000. Increase in Sum assured from RM100,000 to RM150,000 in policy year 2. Death occurs at 2 years and 6 months.
Total ASA = (1% x RM100,000)x2 = RM2,000
Total Death Benefit = RM150,000 + RM2,000 + TIV = RM152,000 + TIV

Scenario 3:
Initial Sum Assured = RM800,000. Decrease in Sum assured from RM800,000 to RM 500,000 in policy year 3. Death occurs at 35 years and 8 months.
Total ASA = (1% x RM500,000)x30 = RM150,000
Total Death Benefit = RM500,000 + RM150,000 + TIV = RM650,000 + TIV

Scenario 4:
Initial Sum Assured = RM100,000. IL CI Benefit Rider with Sum Assured of RM100,000 is attached. No increase/ decrease in Sum assured. CI occurs at 4 years and 3 months. Death occurs at 10 years and 5 months.

- After CI claim at 4 years and 3 months, there is no longer any Basic Sum Assured on this policy. The ASA of RM4,000* along with TIV will be payable upon death / TPD claim.
  **ASA at 4 years and 3 months = (1% x RM100,000) x 4 = RM4,000*
- Total Death Benefit at 10 years and 5 months = RM4,000 + TIV.

Scenario 5:
Initial Sum Assured = RM100,000. IL CI Benefit Rider with Sum Assured of RM80,000 is attached. No increase/ decrease in Sum assured. CI occurs at 5 years and 3 months. Death occurs at 15 years and 5 months.

- After CI claim at 5 years and 3 months, the ASA of RM5,000* along with TIV will be payable upon death / TPD claim. The ASA will still apply for the remaining Current Sum Assured of RM20,000**.
  **ASA at 5 years and 3 months = (1% x RM100,000) x 5 = RM5,000*
  ***Current Sum Assured = Initial Sum Assured – IL CI Benefit Rider Sum Assured = RM100,000 – RM80,000 = RM20,000*
- Total ASA payable at death
  = max [(1% x RM20,000)x15, ASA after CI claim]
  = max [RM3,000, RM5,000] = RM5,000
- Total Death Benefit
  = RM20,000 + RM5,000 + TIV = RM25,000 + TIV

Scenario 6:
Initial Sum Assured = RM500,000. IL CI Benefit Rider with sum assured of RM100,000 is attached. No increase/ decrease in sum assured. CI occurs at 14 years and 3 months. Death occurs at 20 years and 5 months.

- After CI claim at 14 years and 3 months, the ASA of RM70,000* along with TIV will be payable upon death / TPD claim. The ASA will still apply for the remaining Current Sum Assured of RM400,000**.
  **ASA at 14 years and 3 months = (1% x RM500,000) x 14 = RM70,000*
  ***Current Sum Assured = Initial Sum Assured – IL CI Benefit Rider Sum Assured = RM500,000 – RM100,000 = RM400,000*
- Total ASA payable at death
  = max [(1% x RM400,000)x20, ASA after CI claim]
  = max [RM80,000, RM70,000] = RM80,000
- Total Death Benefit
  = RM400,000 + RM80,000 + TIV = RM480,000 + TIV

Scenario 7:
Initial Sum Assured = RM700,000. No increase/ decrease in sum assured. Death occurs at 40 years and 2 months.
Total ASA = (1% x RM700,000) x 30 = RM210,000
Total Death Benefit = RM700,000 + 210,000 + TIV = RM910,000 + TIV

Scenario 8:
Initial Sum Assured = RM15,000,000. No increase/ decrease in sum assured. TPD occurs at 32 years and 2 months. Death occurs at 40 years and 5 months.

- TPD claim amount:
  = Min (ASA + BSA, RM10,000,000)
  = Min (RM4,500,000 + RM15,000,000, RM10,000,000)
  = RM10,000,000
  This TPD claim amount will be payable in 3 annual instalments with the first being a lump sum of RM2,000,000 and the balance will be payable in two equal, annual instalments of RM4,000,000 each. There will not be any ASA payout in the future as the ASA portion of RM4,500,000 will be advanced first before the BSA in determining the TPD claim amount. Remaining sum assured = RM15,000,000 – RM5,500,000 = RM9,500,000
- After TPD claim, the COI will be charged on the remaining sum assured of RM9,500,000.
- Total Death Benefit
  = RM9,500,000 + TIV

iv. Maturity Benefit

The Total Investment Value (TIV) less indebtedness, if any, will be payable at the maturity date stated in schedule or any subsequent endorsement. TIV is calculated at NAV at the next Valuation Date.

v. No-lapse Guarantee (NLG)

There is 3 years no lapse guarantee for the first three policy years starting from the day the policy is inforced. This means that the policy and its attachable supplementary benefits shall continue to remain inforce even if the TIV becomes zero, subject to the following conditions:

a) Regular premium is payable consistently.
b) No premium holiday is allowed.
c) No partial withdrawal is allowed

When no-lapse guarantee is in effect, all benefits (after deducting any deficit amount in the TIV) shall be payable upon a valid claim event, given the conditions above are met.

However, the policy will lapse if the TIV becomes zero in any year from the 4th policy year onwards.

Policy Fee and Insurance Charge due after the No-lapse guarantee has taken effect will be deducted when
(a) the Budgeted Premium and Great Saver Rider premium (if any) of this Policy is paid; or
(b) the Investment Top-ups is paid
until the Policy Fee and Insurance Charge due are fully paid.

Policy Fee and Insurance Charge due after the No-lapse guarantee has taken effect will also be deducted from any benefits payable under this Policy.

NLG is not available for auto extension.

NET ASSET VALUE (NAV)

i. NAV

The price at which the policy owner buys the units in a fund and sells the units back to the fund.

ii. Determination of Price

NAV of each fund are determined daily, after the valuation of the assets of that fund.

PREMIUM

i. Premium payment mode

Regular premium, choice of yearly, half-yearly, quarterly and monthly

Inclusion of GAE or SPTU upon inception can be paid via credit card. However, SPTU during CS stage is only payable by cash or cheque.

ii. Premium mode factors

Modal premium is determined before annual premium where the annual premium is M times of the Modal premium.

Mode of Modal Premium	M
Annually	1
Half-yearly	2
Quarterly	4
Monthly	12

iii. Premium Payment Method

Internet Banking, Auto Debit, Credit Card, Cash, Cheque, or Banker's Order. However, cash and cheque are not allowed for monthly mode of payment.

SPTU during CS stage is only payable by cash or cheque.

iv. Advance Premium

APA account is not applicable. Follow existing IL plans' practice, all premium paid will be allocated to the funds as chosen by the policy owner.

v. Great Saver Rider (GSR) – Applicable at NB stage only

- Only available for substandard case.
- GSR premium will follow Budgeted Premium (BuP) in term of fund selection and payment mode.
- Customer CANNOT amend the GSR premium at CS stage (cannot increase/reduce GSR premium), but customer has the right to terminate the GSR.
- Will use Annexure "GSRS".

vi. Balancer (Applicable at CS Stage only)

For reduction of sum assured or increase of premium at CS stage: Any excess in premium after SAM rule will be treated as Balancer.

Age at Entry	Sum Assured Multiple (SAM) Rule
1 – 16	60
17 – 25	55
26 – 35	50
36 – 45	35
46 – 55	25
56 and above	15

Example 1 - Reduction of Sum Assured:

- Life Assured: 30 ANB, Male Non-smoker
- SAM rule of 50
- Bought SPEI3 with BSA of RM500,000 with RM10,000 premium
- At CS stage, reduce sum assured to RM300,000 without reducing BuP.
  - ➔ RM6,000 of the premium will be considered as Insurance Premium whereas the remaining RM4,000 will be considered as Balancer.

Example 2 - Increase of Premium:

- Life Assured: 30 ANB, Male Non-smoker
- SAM rule of 50
- Bought SPEI3 with BSA of RM500,000 with RM10,000 premium
- At CS stage, increase premium to RM15,000 without increasing coverage.
  - ➔ RM10,000 of the premium will be considered as Insurance Premium whereas the remaining RM5,000 will be considered as Balancer.

vii. Golden Age Enhancer (GAE)

a) A policyholder can include GAE at inception of the policy. The GAE will have a higher allocation rate, which is 95% as compared to the first year allocation rate of 60%. The high allocation rate would enable more funds to be projected into the investment funds with potential higher returns.
b) The minimum entry age to be eligible for GAE is age 55 next birthday.
c) Minimum GAE amount is one time of BuP and it is fixed at one time of BuP. If inclusion of GAE occurs at policy inception due to failing of Illustration Rule, GAE will then be allowed to exceed the amount of BuP.
d) For cases with premium payment mode other than yearly mode, first policy year BuP need not be fulfilled before GAE is payable.

PREMIUM ALLOCATION

i. Insurance Premium

a) The insurance premiums are allocated to the unit funds at the following rates:

Year of Premium Paid	Policy Year								
	1	2	3	4	5	6	7	8	>=9
10	80%	80%	80%	90%	90%	90%	95%	95%	100%
11	78%	78%	78%	89%	89%	89%	95%	95%	100%
12	76%	76%	76%	88%	88%	88%	95%	95%	100%
13	74%	74%	74%	87%	87%	87%	95%	95%	100%
14	72%	72%	72%	86%	86%	86%	95%	95%	100%
15	70%	70%	70%	85%	85%	85%	95%	95%	100%
16	68%	68%	68%	84%	84%	84%	95%	95%	100%
17	66%	66%	66%	83%	83%	83%	95%	95%	100%
18	64%	64%	64%	82%	82%	82%	95%	95%	100%
19	62%	62%	62%	81%	81%	81%	95%	95%	100%
20	60%	60%	60%	80%	80%	80%	95%	95%	100%

b) The premium allocation rate for policies that have been auto extended is 100% for all years.

ii. Single Premium Top-Ups / GSR / GAE / Balancer

Allocation Rate: 95%

CHARGES

i. Insurance Charge

- Insurance charges depend on the attained age next birthday, gender, occupation class, medical rating and smoking status, where applicable. The company may vary these insurance charges at each policy anniversary.
- The monthly insurance charges are calculated as the sum assured times one twelfth of the risk rates corresponding to the attained age.
- These charges will be deducted by selling units already allocated to the Policy, at the NAV on the next Valuation Date following the due date of the insurance charges.
- Basic benefit insurance charge rates follow existing regular premium ILP basic benefit insurance charge rates.

ii. Policy Fee

A monthly administration fee of RM6 will be deducted by selling units already allocated to the Policy from the policy owner's funds, at the NAV at the next Valuation Date, at the beginning of each policy month.

iii. Fund Management Charge

- A fund management charge will be deducted at each asset valuation before determining the NAV. Unit prices will reflect the deduction.
- The management charge to be deducted is:

$$\frac{t}{250} \times K\%^* \times \text{Value of Fund}$$

where:

t = the number of business days from the preceding Valuation Date to the Current Valuation;

K%* = the percentage charge (subject to the Investment Committee's approval) for the appropriate fund as follows:

Fund	K% *
F17 Lion Enhanced Equity Fund	1.50
F18 Dana Gemilang	1.50
F1 Lion Balanced Fund	1.00
F4 Lion Fixed Income Fund	0.50
F5 Lion Progressive Fund	1.35
F6 Dana Sejati	0.50
F21 Lion Advanced Strategic Fund	1.35
F22 Lion Small Mid Cap Fund	1.40

*subject to management changes

- Value of Fund refers to the value of the appropriate fund as determined by the Company.

FLEXIBLE OPTIONS

i. Single Premium Top-Ups (SPTU)

NB Stage

- For Life Assured aged between 30 days attained age and age 54 next birthday, SPTU can be included at policy inception if Illustration Rule failed.
- Minimum SPTU at inception is RM1,000 and increases in multiples of RM100.
- First policy year BuP need not be fulfilled for SPTU that is attached due to failing Illustration Rule.

CS Stage

- After the policy is inforce, SPTU can be included as investment top-ups at any time provided that the current year's and all previous years' BuP have been fulfilled.
- Minimum SPTU is RM 1,000.

ii. Premium Increment

A policyholder can increase the regular BuP subject to the following conditions:

a) Increase in premium can take effect from the next premium due date subject to the constraints below:

Mode of Payment	Minimum Increment (RM)
Annually	240
Half-yearly	120
Quarterly	60
Monthly	20

b) The policyholder may choose to increase the premium without increasing the coverage. Any excess in the premium increment (after calculating the maximum Insurance Premium which commensurate with the sum assured chosen by the policyholder) will be treated as Balancer.

c) Any increase in premium will be treated as a new premium for the purpose of allocation to the unit funds.

iii. Decrease in Premium

A policyholder can decrease the regular premium subject to the following conditions:

a) Decrease in premium can take effect from the next premium due date.

b) For policy amendments (i.e. amendment on the premium or sum assured) after policy is in force, agent will use ILP Alteration Calculator to check for premium sufficiency.

Mode of Payment	Minimum Premium after the Decrease (RM)
Annually	1,200
Half-yearly	600
Quarterly	300
Monthly	100

iv. Partial Withdrawal

Monies can be withdrawn by selling some of the units at the NAV in one or more of the invested funds subject to the following conditions:

a) The minimum amount for partial withdrawal is RM 1,000.
b) The aggregate value of the remaining units in all funds must be at least RM1,000.

v. Fund Switching

A policy owner can sell units in any one fund at the NAV and purchase units in any of the other funds at the NAV at no charge, at any time after the policy has turned in force. The minimum amount sold to purchase units in another unit fund is RM1,000 per fund. However, if the fund is less than RM1,000, it can be done provided all the units in that fund are switched. More than one switch can be done at one time and this will be considered as a single switch.

vi. Changing Premium Apportionment

A policyholder can alter the premium apportionment at any time. After the Company receives the alteration request, the next and all future premiums will be apportioned to the Unit Funds in the new proportions subject to the minimum BuP listed in the table below:

Mode of Payment	Minimum Amount Apportionable to Each Fund (RM)
Annually	12
Half-Yearly	6
Quarterly	3
Monthly	1

UNDERWRITING GUIDELINES

Budgeted Premium (BuP)

Mode of Payment	Minimum BuP (RM)	Maximum BuP (RM)
Annually	1,200	N/A
Half-Yearly	600	
Quarterly	300	
Monthly	100	

Insurance Premium (IP)

Mode of Payment	Min IP (NB) (RM)	Min IP (CS) (RM)	Maximum IP (RM)
Annually	1,200	240	No Limit
Half-Yearly	600	120	
Quarterly	300	60	
Monthly	100	20	

Sum Assured for Basic Benefit
New Business

In Force
Minimum: RM12,000
Maximum: Subject to sufficiency tests whereby projected funds is sufficient to meet projected risk and other charges up to the maturity of the policy.

Age at Entry

Maturity Age	Minimum*	Maximum**
Age 70	16 years next birthday	50 years next birthday
Age 80		60 years next birthday
Age 90		70 years next birthday

Age at Entry for Golden Age Enhancer
Minimum : 55 years next birthday
Maximum : 70 years next birthday

Premium Payment Term
Same as Coverage Term.

Coverage Term
Option of coverage up to age 70, 80 or 90 years next birthday.

Female Rates / Non-smoker Discount
Rates vary by gender and smoker statuses.

Large Sum Assured Discount (LSAD)

Net Sum Assured (RM) (Basic Sum Assured)	Discount on Annual Insurance Charge (%)
100,000 – 249,999	10%
250,000 – 499,999	15%
500,000 and above	20%

Notes:
a. The discount on annual insurance charge will be applied across male, female, smoker and non-smoker.
b. For substandard cases, LSAD will only apply to the standard basic insurance charge, where the loaded basic insurance charge will not be discounted.

Non-Medical Limits
The proposal will be underwritten based on the combined Sum Assured of Basic Benefit and riders (if applicable). The non-medical limits are based on current Internal Underwriting Guidelines / Field Underwriting Manual.

Underwriting for Substandard Life
Follow existing practice.

CHANGES IN SUM ASSURED

Any changes in the sum assured will take effect from the next Insurance Charge due date:

i. Increase in Sum Assured
Allowed up to the maximum sum assured (based on the sustainability test) and subject to underwriting.

ii. Decrease in Sum Assured
Policyholder may voluntarily reduce the sum assured, subject to the minimum sum assured limits.

ALLOWANCE TO VARY CHARGES

The Company may increase the charges for existing policies in specified circumstances. The charges that are allowed for changing are: *Policy Fee, Fund Management Charge and Insurance Charge.*

ALLOWANCE TO VARY PREMIUM

In the event that the insurance charge of the basic plan or its attaching riders has been revised upwards, the Company may increase the GSR premium to support the increase in insurance charge.

FUNDS

(I) Fund Asset Allocation
Policy owner can choose to invest in one or more of:

Local Funds

a) F1 Lion Balanced Fund
A fund which invests in a mixture of equities (ranging from 40% to 60%) and fixed income securities. This fund seeks to provide medium to long-term capital appreciation, with a moderate level of volatility.

b) F4 Lion Fixed Income Fund
A fund which invests in fixed income securities, for example government and corporate bonds as well as cash and cash equivalents. This fund seeks to provide consistent return at low levels of volatility. Although the fund invests mainly in Malaysia (40% to 100%), it may also partially invest in foreign fixed income securities (up to 50%), to enhance the fund's returns.

c) F5 Lion Progressive Fund
A fund which invests in a mixture of equities (ranging from 50% to 90%) and fixed income securities. This fund seeks to provide medium to long-term capital appreciation, with a moderate-to-high level of volatility.

d) F6 Dana Sejati
A fund which invests in Shariah approved fixed income securities, for example government and corporate sukuk as well as Islamic money market papers/deposits. This fund seeks to provide consistent return at low levels of volatility. Although the fund invests mainly in Malaysia (40% to 100%), it may also partially invest in foreign Shariah approved fixed income securities (up to 50%), to enhance the fund's returns.

e) F17 Lion Enhanced Equity Fund
A fund where 80% to 100% of the investments are in equities, which may be volatile in the short term. This fund seeks to achieve medium to long-term capital appreciation. Although the fund invests mainly in Malaysia (50% to 100%), it may also partially invest in Singapore (up to 25%) and Hong Kong (up to 25%), if and when necessary, to enhance the fund's returns.

f) F18 Dana Gemilang
A fund where 80% to 100% of the investments are in equities, which may be volatile in the short term. This fund seeks to achieve medium to long-term capital appreciation. Although the fund invests mainly in Malaysia (50% to 100%), it may also partially invest in Singapore (up to 25%) and Hong Kong (up to 25%),

if and when necessary, to enhance the fund's returns. The fund only invests in Shariah-approved securities.

g) F21 Lion Advanced Strategic Fund
A fund which invests in a mixture of equities, fixed income securities and money market instruments in Malaysia and companies that have significant business operations in Asia. There is flexibility in asset allocation as this fund may invest solely in fixed income securities or equities. Collective investment schemes such as unit trusts, mutual funds and exchange-traded funds which invest in such underlying asset classes maybe considered. The fund seeks to maximize capital appreciation over the medium to long-term while reducing risks and/or enhancing returns through timely and dynamic switching of asset classes in different markets at any given point in time.

h) F22 Lion Small Mid Cap Fund
A fund where 60% to 100% of investments are in equities with the balance in cash and/or cash equivalents, which may be volatile in the short term. This fund seeks to achieve medium to long-term capital appreciation, investing in Malaysian (50% to 100%) Small and Medium Market Capitalisation ("Small Mid Cap") equities. It may partially invest in foreign Small Mid Cap equities (Asia Pacific excluding Japan region) if and when necessary, to enhance the fund's returns.

(II) Investment Strategy
Policy owner can choose one of the investment strategies: -

With Strategy Package
a) 7 My Choiced Investor Profile
b) 28 Secure
c) 29 Moderately Secure
d) 30 Balanced
e) 31 Dynamic
f) 32 Very Dynamic
g) 33 Secure (Islamic Funds)
h) 34 Moderately Secure (Islamic Funds)
i) 35 Balanced (Islamic Funds)
j) 36 Dynamic (Islamic Funds)
k) 37 Very Dynamic (Islamic Funds)

Without Strategy Package
a) My Choiced

OTHER PRODUCT FEATURES

i. Surrender Values
The cash value of the policy is the total value of all the units in all the funds selected by the policy owner based on the NAV at the Next Valuation Date. Any indebtedness will be deducted from the surrender amount.

ii. Paid-up Values / Extended Term Assurance / Policy Loans / Automatic Premium Loan / Bonus Rate / Option to Purchase New Policy
Not applicable.

iii. Replacement of Policies
Applicable. An agent or agency leader may not receive any compensation with respect to a policy, which replaced another policy within a duration of less than 12 months before or after the original policy is discontinued subject to the current practice.

iv. Nomination/Assignment/Third Party Policy

a) There is no restriction on assigning and this policy can be issued as Third Party policy.
b) The minimum age at entry for policy owners should be 19 years old next birthday (age limit for life insured is according to the min & max entry age stated in an earlier page).

v. Reinstatement Period

3 years. Reinstatement is subject to the deduction of any indebtedness to the company. The request for reinstatement must be submitted prior to the maturity date stated in the schedule or subsequent endorsement of the policy.

vi. Backdating

Not allowed.

vii. Free-Look Period

Policy owner is allowed to cancel the policy within 15 days. Budgeted Premium (BuP), less medical fees incurred and adjustments to reflect the change in market value of the underlying assets, will be refunded.

Equivalently, the refund is the sum of the: -

a) Total Investment Values of the policy based on the NAV at next valuation date; and
b) The investment values of the units which have been cancelled to pay for insurance charges and policy fee; and
c) The amount of the premiums that have not been allocated;

Less

Medical expenses incurred for medical examinations, if any; and

viii. 10-Year Auto Extension

The Policy will be extended automatically to another 10 years of coverage at maturity without any evidence of insurability. Thereafter, the extension will take place every 10 years provided:

1) The initial or extended policy is in force and not terminated.
2) The life assured has not exceeded the age 90 next birthday.

Upon each Auto-Extension:

a) Both basic and riders' benefit will be extended at the same level of coverage or based on the reduced/remaining Sum Assured if partial claim has been made prior to the Auto-Extension. Same terms & conditions that has been imposed on the policy shall be applicable to the extended coverage.
b) Certain riders might not be extended if:
   i. the respective attaching rider has reached its maximum coverage term prior to or upon Auto-Extension of the policy; or
   ii. the rider has paid out the maximum benefit; or
   iii. the rider has been terminated
c) Waiting period for the same benefits shall not be applied again.
d) The new Budgeted Premium payable for extended coverage shall be based on:
   i. the life assured's age next birthday upon Auto-Extension of the policy.
   ii. sustainability until the end of 10 years.
   iii. any underwriting decisions that has been imposed on the policy prior to the Auto-Extension.

If policy owner does not want to extend the plan, he/she must notify the Company at least 30 days prior to the initial or extended maturity of the policy.

ix. Termination of Premium Payment

Termination of premium payment does not directly result in policy termination. The policy continues to remain in force as long as the TIV are positive.

x. Policy Termination
On Monthly Due Dates, if TIV is insufficient to pay the policy fee and insurance charge, the policy will lapse. The lapse date is determined on pro-rated basis.

xi. Vesting Age
Applicable. Follow existing ILP practice.
