e) The maximum TPD Benefit payable under this and all policies and riders on the same life, is RM10,000,000 per life (excluding group policies).

**iii. Additional Sum Assured**

a) The Additional Sum Assured payable at death or TPD is:

1% x Min(Current Sum Assured, Initial Sum Assured, RM300,000) x completed policy years at death or TPD.

Note:
- Initial Sum Assured refers to Basic Sum Assured at policy commencement.
- Current Sum Assured refers to Basic Sum Assured at death or TPD.
- No additional insurance charges apply to the Additional Sum Assured.
- Basic Sum Assured will stay level throughout whole policy term, unless policyholder choose to increase or decrease sum assured

**Examples:-**

**Scenario 1**:
Initial Sum Assured = RM100,000. No increase/ decrease in sum assured. Death occurs at 4 years and 3 months.
Total Additional Death Benefit payable at death = (1% x RM100,000) x 4 = RM4,000

**Scenario 2**:
Initial Sum Assured = RM100,000. Increase in Sum assured from RM100,000 to RM150,000 in policy year 2. Death occurs at 2 years and 6 months.
Total Additional Death Benefit payable at death = (1% x RM100,000) x 2 = RM2,000

**Scenario 3**:
Initial Sum Assured = RM100,000. Decrease in Sum assured from RM100,000 to RM50,000 in policy year 3. Death occurs at 3 years and 8 months.
Total Additional Death Benefit payable at death = (1% x RM50,000) x 3 = RM1,500

**Scenario 4**:
Initial Sum Assured = RM500,000. No increase/ decrease in Sum assured. Death occurs at 4 years and 5 months.
Total Additional Death Benefit payable at death = (1% x RM300,000)x4 = RM12,000

**Scenario 5**:
Initial Sum Assured = RM100,000. IL CI Benefit Rider with Sum Assured of RM100,000 is attached. No increase/ decrease in Sum assured. CI occurs at 4 years and 3 months. Death occurs at 10 years and 5 months.

- After CI claim at 4 years and 3 months, there is no longer any Basic Sum Assured on this policy. The Additional Sum Assured of RM4,000* will be payable upon future death / TPD claim .
  **Additional Sum Assured at 4 years and 3 months = (1% x RM100,000) x 4 = RM4,000*
- Total Death Benefit payable at death = RM4,000 (with no Additional Death Benefit).

**Scenario 6**:
Initial Sum Assured = RM100,000. IL CI Benefit Rider with Sum Assured of RM80,000 is attached. No increase/ decrease in Sum assured. CI occurs at 5 years and 3 months. Death occurs at 15 years and 5 months.

- After CI claim at 5 years and 3 months, the Additional Sum Assured of RM5,000* will be payable upon future death / TPD claim . The increase in Sum Assured will still apply for the remaining Current Sum Assured of RM20,000**.
  **Additional Sum Assured at 5 years and 3 months = (1% x RM100,000) x 5 = RM5,000*
  ***Current Sum Assured = Initial Sum Assured – IL CI Benefit Rider Sum Assured = RM100,000 – RM80,000 = RM20,000*
- Total Additional Death Benefit payable at death
  = max [(1% x RM20,000)x15, additional Sum Assured after CI claim]
  = max [RM3,000, RM5,000] = RM5,000

b) Child lien is applicable to this additional Death and TPD Benefit.
c) There are no additional insurance charges for the total additional death and TPD benefit. Thus, the calculation of Insurance Charges follows the Insurance Charge as described under the following section.
d) The Additional Sum Assured is offered to standard and substandard lives.
e) Note that if IL CI Benefit Rider (U100) is attached, the Additional Sum Assured does not apply to IL CI Benefit Rider.

**iv. No-lapse Guarantee**

There is 3 years no lapse guarantee for the first three policy years starting from the day the policy is inforced. This means that the policy and its attachable supplementary benefits shall continue to remain inforce even if the TIV becomes zero, subject to the following conditions:
a) Regular premium is payable consistently.
b) No premium holiday is allowed.
c) No partial withdrawal is allowed

With the no-lapseguarantee, the Company will pay the Sum Assured (after deducting any deficit amount in the TIV) upon a valid claim event, given the conditions above are met.

However, the policy will lapse if the TIV becomes zero in any year from the 4th policy year onwards.
