b) Premiums paid are used to purchase units in the Unit Fund(s). The policy value of this plan will vary directly with the performance of the Unit Fund(s).
c) This plan has no fixed term (whole life plan).
d) Annual Premium = Budgeted Premium (BuP).
e) Budgeted Premium (BuP) is the premium that you want to invest.
f) BuP = Insurance Premium + Balancer* (if any).
**Please note that the excess of BuP (due to the SAM multiple rule) will auto flow to Balancer. Also take note that the APILP limit of RM 5,000 will no longer apply.*
g) There will be no GSR (neither Forced GSR nor Purchasable GSR) for this product.
h) The policy will lapse if the Total Investment Value falls to zero or below.
i) Smart**Protect** Essential Insurance 2 will employ a single-pricing basis, where all transactions will be based on one price only. For single pricing, Offer Price is no longer used).

BENEFITS

BASIC BENEFIT

i. Death Benefit

The Basic Sum Assured, Additional Sum Assured plus Total Investment Value (TIV) will be payable upon death. TIV is calculated at NAV at the next Valuation Date.

In the event death occurs before age of 5, 100% of TIV and the following percentage of Basic Sum Assured are payable.

Age next birthday	Death Benefit after Lien
1	20% of the Basic Sum Assured
2	40% of the Basic Sum Assured
3	60% of the Basic Sum Assured
4	80% of the Basic Sum Assured

Full life cover will be given from age 5 years next birthday.

ii. Total and Permanent Disability (TPD) Benefit

a) 100% TIV is payable in one lump sum (or be retained with the Company).
b) The Basic Sum Assured and Additional Sum Assured not exceeding RM2,000,000 shall be paid in 3 annual instalments with the first being a lump sum of the Basic Sum Assured and Additional Sum Assured or RM1,000,000 whichever is lesser, and the balance of the Basic Sum Assured and Additional Sum Assured (if any), will be payable in two equal, annual instalments of maximum RM500,000 each.
c) Parts (a) and (b) only applies for TPD occurring prior to the policy anniversary on which the Life Assured attains age 70 next birthday.

d) The TPD cover for child below age 5 next birthday is subject to the lien as per Death Benefit and maximum amount of RM500,000 under this and all policies and riders on the same life. Full TPD cover will be given from age 5 next birthday onwards.
e) The maximum TPD Benefit payable under this and all policies and riders on the same life, excluding Mortgage Decreasing Term Policy without Profits (with TPD Benefits), the Enhanced TPD Rider and Term Policy without Profits (with TPD Benefits), is RM2,000,000 per life.
f) The maximum TPD Benefit payable under this and all policies and riders on the same life, is RM 3,500,000 per life across all distribution channels.

iii. Additional Sum Assured

a) The Additional Sum Assured is payable at death or TPD is:

1% x Min (Current Sum Assured, Initial Sum Assured, RM300,000) x completed policy years at death or TPD.

Note:
- Initial Sum Assured refers to Basic Sum Assured at policy commencement.
- Current Sum Assured refers to Basic Sum Assured at death or TPD.
- No additional insurance charges apply to the Additional Sum Assured.
- Basic Sum Assured will stay level throughout whole policy term, unless policyholder choose to increase or decrease sum assured.

Examples:

Scenario 1:
Initial Sum Assured = RM100,000. No increase/ decrease in sum assured. Death occurs at 4 years and 3 months.
Total Additional Death Benefit payable at death = (1% x RM100,000) x 4 = RM4,000

Scenario 2:
Initial Sum Assured = RM100,000. Increase in Sum assured from RM100,000 to RM150,000 in policy year 2. Death occurs at 2 years and 6 months.
Total Additional Death Benefit payable at death = (1% x RM100,000) x 2 = RM2,000

Scenario 3:
Initial Sum Assured = RM100,000. Decrease in Sum assured from RM100,000 to RM 50,000 in policy year 3. Death occurs at 3 years and 8 months.
Total Additional Death Benefit payable at death = (1% x RM50,000) x 3 = RM1,500

Scenario 4:
Initial Sum Assured = RM500,000. No increase/ decrease in Sum assured. Death occurs at 4 years and 5 months.
Total Additional Death Benefit payable at death = (1% x RM300,000) x 4 = RM12,000

Scenario 5:
Initial Sum Assured = RM100,000. IL CI Benefit Rider with Sum Assured of RM100,000 is attached. No increase/ decrease in Sum assured. CI occurs at 4 years and 3 months. Death occurs at 10 years and 5 months.

- After CI claim at 4 years and 3 months, the Additional Sum Assured of RM4,000* will be parked under 'Instalment' Account for future death / TPD claim (handled by Claims Dept). Thus, the Sum Assured will be set as RM1 in the FPMS system to maintain the policy status as "Inforce".
  **Additional Sum Assured at 4 years and 3 months = (1% x RM100,000) x 4 = RM4,000*
- Total Death Benefit payable at death = RM4,000 (with no Additional Death Benefit).

Scenario 6:
Initial Sum Assured = RM100,000. IL CI Benefit Rider with Sum Assured of RM80,000 is attached. No increase/ decrease in Sum assured. CI occurs at 5 years and 3 months. Death occurs at 15 years and 5 months.

- After CI claim at 5 years and 3 months, the Additional Sum Assured of RM5,000* will be parked under 'Instalment' Account for future death / TPD claim (handled by Claims Dept). The increase in Sum Assured will still apply for the remaining Current Sum Assured of RM20,000**.

  **Additional Sum Assured at 5 years and 3 months = (1% x RM100,000) x 5 = RM5,000*
  ***Current Sum Assured = Initial Sum Assured – IL CI Benefit Rider Sum Assured = RM100,000 – RM80,000 = RM20,000*

- Total Additional Death Benefit payable at death
  = max [(1% x RM20,000)x15, additional Sum Assured after CI claim]
  = max [RM3,000, RM5,000] = RM5,000

b) Child lien is applicable to this additional Death and TPD Benefit.
c) There are no additional insurance charges for the total additional death and TPD benefit. Thus, the calculation of Insurance Charges follows the Insurance Charge as described under the following section.
d) The Additional Sum Assured is offered to standard and substandard lives.
e) Note that if IL CI Benefit Rider (U100) is attached, the Additional Sum Assured does not apply to CI Benefit Rider.

iv. No Lapse Provision

There is 3 years no lapse guarantee for the first three policy years starting from the day the policy is inforced. This means that the policy and its attachable supplementary benefits shall continue to remain inforce even if the TIV becomes zero, subject to the following conditions:
a) Regular premium is payable consistently.
b) No premium holiday is allowed.
c) No partial withdrawal is allowed.

With the no lapse provision, the Company will pay the Sum Assured (after deducting any deficit amount in the TIV) upon a valid claim event, given the conditions above are met.

However, the policy will lapse if the TIV becomes zero in any year from the 4th policy year onwards.Policy Fee and Insurance Charge due after the No Lapse Provision takes effect will be deducted when
(a) the Basic Investment Premium and Great Saver Rider premium (if any) of this Policy is paid; or
(b) the Investment Top-ups is paid until the Policy Fee and Insurance Charge due are fully paid.
