** subject to 10% of rider sum assured or RM25,000 per life, whichever is lower.*

The following lien shall apply for child before age 5 years next birthday.

Age Next Birthday on Policy Anniversary Preceding occurrence of critical illness	Critical Illness Benefit
1	20% of rider sum assured
2	40% of rider sum assured
3	60% of rider sum assured
4	80% of rider sum assured

This benefit is subject to RM5,000,000 on any one life under all policies (excluding Bancassurance and Group policies) issued by the Company.

(a) After the claim on Angioplasty and other invasive treatments for coronary artery disease, the basic sum assured and the rider sum assured will be reduced accordingly. In addition, the claim on 49 covered event will still be allowed, subject to the balance amount of the rider sum assured.

Example (1)

Assumptions:
Life Assured : Male, Non-Smoker, Age 30 years next birthday
Basic Sum Assured : RM100K
IL CIBR Sum Assured : RM100K
CI – Angioplasty and other invasive treatments for coronary artery disease occurs at policy year 10.

Assessment:

- Upon occurrence of a valid CI claim for Angioplasty and other invasive treatments for coronary artery disease at policy year 10, RM10K* will be payable under this rider.
  **Minimum (10% of rider sum assured, RM25K) = Minimum (10%*RM100K, RM25K) = RM10K*

- Both the basic sum assured and rider sum assured (for other CI claim) will be reduced to RM90K and the policy will continue to be in force. This means if there is other CI claim subsequently, the payout would be RM90K.
- The insurance charge for the basic plan will be based on the reduced basic sum assured (RM90K) whereas the insurance charge for the rider will be based on the original rider sum assured (RM100K), despite the CI claim for Angioplasty and other invasive treatments for coronary artery disease at policy year 10.

Example (2):
Assumptions:
Life Assured : 1 year NB on policy anniversary preceding occurrence of covered event
Basic Sum Assured : RM100K
IL CIBR Sum Assured : RM100K
CI - Angioplasty and other invasive treatments for coronary artery disease occurs at policy year 2

Assessment:
Upon occurrence of a valid CI claim for Angioplasty and other invasive treatments for coronary artery disease at policy year 2 (age 2 NB),

- Minimum (10%*RM100K, RM25K)*40% = RM4,000
  Note: 40% is child lien for Age 2 next birthday
- Both the basic sum assured and rider sum assured (for other CI claim) will be reduced based on the amount before applying the child lien (10% of RM100k = RM10k)
- Remaining coverage for basic and IL Critical Illness Benefit Rider = RM90,000
- Insurance charge for basic plan (after claim) will be based on the reduced sum assured of RM90,000
- Insurance charge for IL Critical Illness Benefit Rider (after claim) will be based on the original sum assured of RM100,000

Example (3):
Assumptions:
Life Assured : Male, Non-Smoker, Age 30 years next birthday
Basic Sum Assured : RM100K
IL CIBR Sum Assured : RM100K
Smart Early Payout Critical Care Rider (SEPCC) Sum Assured : RM100K
CI - Angioplasty and other invasive treatments for coronary artery disease occurs at policy year 10

Assessment:

- Upon occurrence of a valid CI claim for Angioplasty and other invasive treatments for coronary artery disease at policy year 10, RM10K* will be payable under SEPCC rider.
  **Minimum (10% of SEPCC rider sum assured, RM25K) = Minimum (10%*RM100K, RM25K) = RM10K*
- The insurance coverage for basic sum assured and both riders sum assured will be reduced to RM90K and the policy will continue to be in force.
- The insurance charge for the basic plan and attaching riders are as follows:
  - For basic plan = Based on reduced basic sum assured (RM90K)
  - For IL CIBR = Based on the reduced sum assured (RM90K)
  - For SEPCC = Based on the original sum assured (RM100K), despite the CI claim for Angioplasty and other invasive treatments for coronary artery disease at policy year 10.
