Notes:

- ^ Benefit under this Severity 10 condition is 10% of initial sum assured or RM25,000 **per life assured**, whichever is lower.
- * Benefit under this Severity 25 condition is 25% of initial sum assured or RM50,000 **per life assured**, whichever is lower.
- # Benefit under this Severity 50 condition is 50% of initial sum assured or RM100,000 **per life assured** (including the benefit payable under Severity 25 condition, if any, due to the same illness), whichever is lower.
- Initial sum assured refers to the sum assured at inception or revised sum assured (if any).
- Revised sum assured refers to the sum assured following the request for decrease / increase in sum assured.
- Current sum assured refers to the balance of sum assured (if any) after a claim is admitted.

Conditions:

1. The claims payout on this rider will deplete / accelerate the sum assured of the CIBR (Plan Code: U30) / IL CIBR (Plan Code: U100/ U807) which in turn will also accelerate the basic sum assured.
2. Upon claim payout, the insurance charges for this rider will base on initial sum assured (the full unaccelerated sum assured).
3. Termination of CIBR (Plan Code: U30) / IL CIBR (Plan Code: U100/ U807) will automatically lead to termination of this rider.
4. Upon full payout of SEPCC (thus full acceleration of CIBR/ IL CIBR sum assured) / direct full payout of CIBR (Plan Code: U30) / IL CIBR (Plan Code: U100/ U807), the life assured will be given a “buyback option” (see Other Privileges for details). This means that buyback option will also be available for CIBR (Plan Code: U30) / IL CIBR (Plan Code: U100/ U807) provided that SEPCC is attached to the policy.
   Note: This “buyback option” will not be available effective from 22 July 2024.
5. No waiting period required between submissions of claims.
6. Claims are paid out when the pre-defined conditions are met and the claims payout are within the sum assured limit. Total payouts are limited to 100% of the initial sum assured under this rider. Thereafter, this rider terminates. Subsequently, CIBR/ IL CIBR will also be terminated accordingly. [Note: Basic plan may be terminated if the basic sum assured is similar to the sum assured of CIBR/ IL CIBR.]
7. For claims under same covered event,
   - If there are two or more claims under different Severity Level of the same covered event at the same time, the Company will only pay the highest claim that is admitted by the Company.
   - Once a claim is admitted, no future claims can be made under the same or lower Severity Level for the same covered event.
     For example, if Cancer at Severity 50 is admitted, no future claims can be made under Cancer at Severity 25 and Severity 50.
8. For claims under different covered event, the Company will pay the benefits if there are two or more claims under the same or different Severity Level of the different covered event at the same time.
   For example, if Cancer at Severity 25 is admitted, claims can be made under Heart Attack at Severity 25 & Stroke at Severity 50.
9. For covered event at Severity 25 or Severity 50 without Benefit Limit, the claims payout can be calculated as:
   - percentage of the sum assured

   minus any previous claims admitted under the same covered event, and this is further subject to the total payouts equal to 100% of the initial sum assured under this rider.

Smart Early Payout CriticalCare (Plan Code: U86/U806)

10. For covered event at Severity 25 or Severity 50 with Benefit Limit, the claims payout can be calculated as the minimum of:
    - percentage of the sum assured; or
    - limit for the relevant Severity Level of covered event (RM50,000 or RM100,000, if any)

    minus any previous claims admitted under the same covered event, and this is further subject to the total payouts equal to 100% of the initial sum assured under this rider.
11. The claims payout is further subject to the Related Covered Events Conditions under Exclusions. Please refer to the section of Exclusions for further details.

Example (1):

Assumptions:

- Basic sum assured = RM500,000
- CIBR/ IL CIBR sum assured = RM300,000

Conclusion for Example 1

The basic plan and attaching riders will continue for other claims, except for:

- Cancer Severity 25 and Severity 50; and
- Heart Attack Severity 25 and Severity 50; and
- Coronary Artery Disease Requiring Surgery Severity 10;
- Other related covered event conditions as specified in “Related Critical Illnesses Condition under Exclusions”)

The remaining coverage for the basic plan and attaching riders are as follows:

- Basic SA = RM225K
- CIBR/ IL CIBR SA = RM25K

- SEPCC SA = RM25K

Example (2):

Assumptions:

- Basic sum assured = RM80,000
- CIBR/ IL CIBR sum assured = RM80,000
- SEPCC initial sum assured = RM80,000

Note:

Upon claim, the insurance charges are as follows:

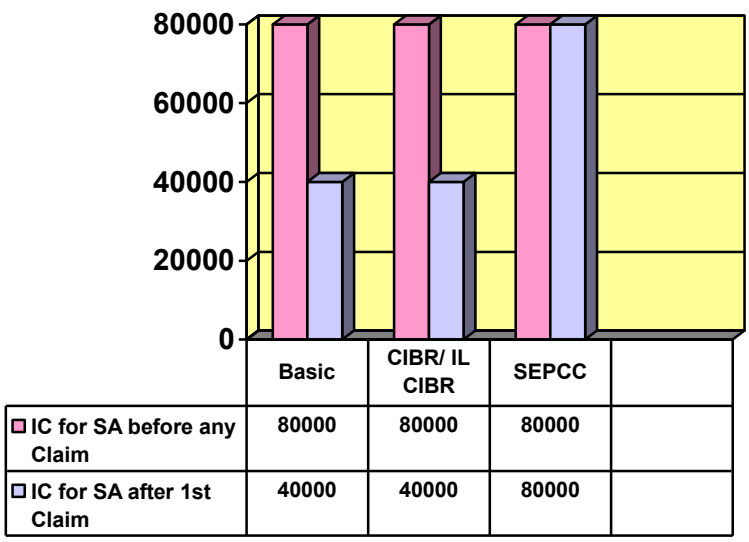

- basic plan based on current sum assured.
- CIBR/ IL CIBR based on current sum assured.
- SEPCC based on initial sum assured. *(Note: communication on the coverage amount to the customer should be the current rider sum assured)*

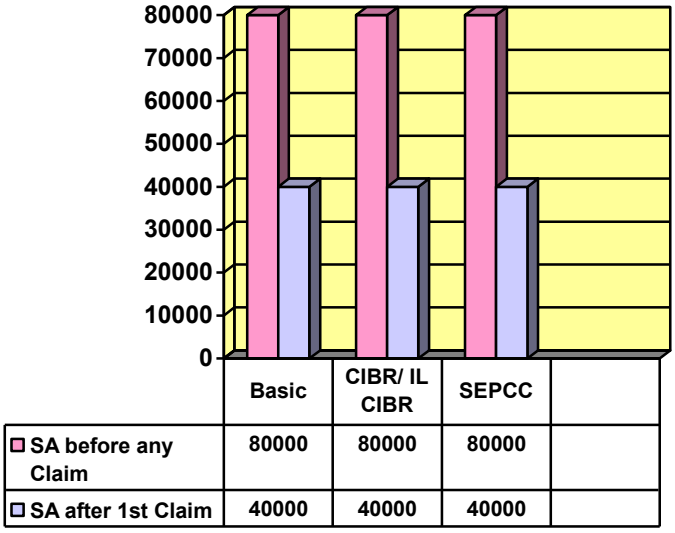

1st Claim for SEPCC

1st Claim	Admitted **Cancer**, claim at **Severity 50** *(Cancer Severity 50 has a Benefit Limit of RM100K)*	Pays the min of (50% of initial SA, Benefit Limit of RM100K) = min of (50%*RM80K, RM100K) = RM40K

Smart Early Payout CriticalCare (Plan Code: U86/U806)

Note: IC = Insurance Charge; SA = Sum Assured

2nd Claim for SEPCC

2nd Claim	Admitted **Cancer**, claim at **Severity 25** *(Cancer Severity 25 has a monetary cap of RM50K)*

Within the same CI, once a claim of a higher severity level is admitted, NO future claims can be made under the same or lower severity level.
So, nothing is payable under this claim.

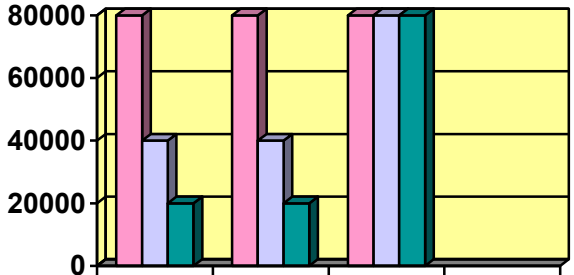

3rd Claim for SEPCC

1st Claim	Admitted **Stroke**, claim at **Severity 25**

Pays the 25% of initial SA
= 25%*RM80K
= RM20K

SA after 3rd Claim	20000	20000	20000	

Note: IC = Insurance Charge; SA = Sum Assured

4th Claim for SEPCC

4th Claim	Admitted **Stroke**, claim under CIBR/ IL CIBR *(Claim will not be paid under SEPCC as it does not fulfill the definition under severity 25 / 50. But it has fulfilled the Stroke definition under CIBR/ IL CIBR.)*

No claim can be made under SEPCC. However, life assured can claim under CIBR/ IL CIBR and it will accelerate the basic sum assured.

- ⇨ So, nothing is payable under this rider. Claim payout under CIBR/ IL CIBR = RM20K and it will accelerate the basic sum assured and lead to termination of SEPCC.
- ⇨ basic current sum assured = RM20K – RM20K = RM0 and the policy terminates.

Note: Upon direct full payout of CIBR/ IL CIBR, life assured will be given an option to exercise the buyback option (see Other Privileges for details).

Conclusion for Example 2

Total payouts are as follows:

- SEPCC = RM60K (which equals to RM40K plus RM20K)
- CIBR/ IL CIBR = RM20K

Although the total payout under this rider is less than 100% of the initial sum assured, termination of the CIBR/ IL CIBR will automatically lead to termination of this rider.

Example (3):

Assumptions:

- Basic sum assured = RM100,000
- CIBR/ IL CIBR sum assured = RM50,000
- SEPCC initial sum assured = RM50,000

Smart Early Payout CriticalCare (Plan Code: U86/U806)

Note: IC = Insurance Charge; SA = Sum Assured

2nd Claim for SEPCC

2nd Claim	Death

No benefits payable under SEPCC or CIBR/ IL CIBR. Life assured will claim the death benefit under basic plan.

⇨ So, nothing is payable under this rider. Claim payout under basic = RM87,500 and the policy will be terminated. Hence, CIBR/ IL CIBR and SEPCC will be terminated as well.

Conclusion for Example 3

Total payouts under this rider = RM12,500
Although the total payout under this rider is less th
of the basic plan will automatically lead to termination of this rider and CIBR/ IL CIBR.

Example (4) – for Child Lien:

3. **Assignment / Third Party Policy / Nomination**
   Follow basic plan.

4. **Waiting Period**
   The eligibility for covered event benefit will start only 30 / 60 days (depending on the type of covered event, except for Cancer with Severity 25 and Severity 50 where 120 days waiting period shall apply) after the effective date or reinstatement date of this rider, whichever is later.

   There is no waiting period required between submissions of claims.

5. **Survival Period**
   Not applicable (as this rider will accelerate the sum assured of CIBR (Plan code: U30) / IL CIBR (Plan code: U100/ U807)

6. **Reinstatement**
   Follow basic plan. In the event of any upward revision in insurance charges, the insurance charges will be revised from the next policy anniversary falling on or after the revision date or reinstatement date, whichever is later. However, for any downward revision of the insurance charges, the Company reserves the right to implement it immediately without giving notice.

7. **Replacement of Policies (ROP)**
   Not applicable

OTHER PRIVILEGES

Option to BuyBack (Applicable to both Standard and Substandard Lives at Inception) - This option will not be available effective from 22 July 2024
Upon full payout of this rider (thus full acceleration of CIBR/ IL CIBR sum assured) / direct full payout of CIBR (Plan Code: U30) / IL CIBR (Plan Code: U100/ U807), the life assured shall be given an

option to buyback the death benefit* up to the maximum current sum assured* of this rider. This means that buyback option will also be available for CIBR (Plan Code: U30) / IL CIBR (Plan Code: U100/ U807) provided that SEPCC is attached to the policy.

Current sum assured refers to the sum assured **before any claim is admitted under this rider. This is because no change to the rider sum assured is allowed once a claim is admitted under this rider.*

The aggregate sum assured purchased by the life assured with respect to this or similar options on all policies should not exceed RM1,000,000.

This option must be exercised within the window period of 60 days from the date of admittance of the covered event claims where SEPCC / CIBR / IL CIBR has been fully payout, without evidence of assurability.

This option will be terminated on the earliest of the following dates:
(i) the policy anniversary on which life assured's age is 65 years next birthday; or
(ii) when the Company receives the request for the termination of Smart EPCC; or
(iii) when the basic ILP lapses or is surrendered or terminated in any other manner.

Upon exercising this option, there will be no death benefit payable in the first year of the buyback (i.e. from the option exercise date); premium of the new basic plan will be refunded (at the rate of interest that the Company may determined from time to time) if death occurs within the first year.

Premium of the buyback cover shall be at the same class of rating as this rider and in accordance with the Company's rate then in use for the age next birthday of the life assured without evidence of Assurability.

TPD coverage and purchase of riders are not allowable on buyback.

The other existing conditions of BuyBack option shall apply for the Buyback option for this rider. For instance, the BuyBack option is not provided to covered event claims arising from Terminal illness or HIV related claims, etc.

* Plan that can be purchased under this option would be WL Non-Par (i.e. Great MaxiProtector - Plan Code: 0272) and any whole life policies to be offered under this option in future.
