The policy's Total Investment Value (TIV) will reduce according to the formulas in the table below.

Claim	**CI Payout**	**Deduction of TIV amount after CI claim**	
Angioplasty	10% of rider sum assured, subject to a maximum of RM25,000 per life	Angioplasty payout (10% of rider sum assured, subject to a maximum of RM25,000 per life) – Min(10% x Rider Net Sum Assured, RM25,000)	
All covered event except for Angioplasty	Rider sum assured – any Angioplasty payout	**If BSA > TIV** Max (proportionate TIV – any TIV amount deducted due to Angioplasty claim, 0)	**If BSA <= TIV** Rider SA – Angioplasty payout (if any)
Rider Net Sum Assured = Max (rider SA – proportionate TIV, 0) where proportionate TIV = rider SA / BSA x TIV			

Refer to Appendix 2 for examples on the calculation of TIV deduction.

Notes:
(a) A 30/60 days waiting period shall apply, depending on the types of covered event as per the list below.
(b) After the claim on Angioplasty, the basic COI calculation will be based on the reduced basic sum assured but the rider COI calculation will be based on the original rider sum assured (before claim). In addition, the claim on the listed covered event will still be allowed, subject to the balance amount of the rider sum assured.

(IL Unit Deduction Rider – Investment Linked Insurance Plan)

CHANGES IN SUM ASSURED

Increase in Sum Assured
Not allowed.

Decrease in Sum Assured
The rider sum assured can be decreased **BEFORE** any claim is admitted under this rider. Once a claim is admitted under this rider, no change in the sum assured is allowed.

Partial Withdrawal of basic plan
Upon partial withdrawal of the basic plan, the rider sum assured will be reduced by the Proportionate withdrawal of Total Investment Value.

Proportionate withdrawal of Total Investment Value
= (Covered Event Benefit Sum Assured / Basic Sum Assured) * Total Investment Value withdrawal amount

However, if the sum assured of Covered Event Benefit is reduced to lower than RM6,000 after the partial withdrawal of the basic plan, the sum assured of Covered Event Benefit will be set to RM6,000.

Example 1:
A policy with BSA=RM500,000, Covered Event Benefit sum assured=RM250,000, TIV=RM200,000
Policyholder request to exercise partial withdrawal of RM100,000.

Thus,
BSA is reduced to RM500,000 – RM100,000 = RM400,000
Covered Event Benefit sum assured is reduced to RM250,000 – 0.5*RM100,000 = RM200,000
Remaining TIV is RM200,000 – RM100,000 = RM100,000.

Example 2:
A policy with BSA=RM500,000, Covered Event Benefit sum assured=RM250,000, TIV=RM498,000
Policyholder request to exercise partial withdrawal of RM495,000.

Thus,
BSA is reduced to RM500,000 – RM495,000 = RM5,000
Covered Event Benefit sum assured is reduced to RM250,000 – 0.5*RM495,000 = RM2,500
Remaining TIV is RM498,000 – RM495,000 = RM3,000.

However, as the BSA and Covered Event Benefit sum assured is lower than RM6,000 after partial withdrawal, the BSA and Covered Event Benefit sum assured for this policy will be set to RM6,000.
