Prestige Heritage Global (Plan Code: 0565)

(Regular Premium Investment-Linked Insurance Plan)

Plan Name	: Prestige Heritage Global (“尊荣国际传承”) – *Effective 17 August 2026* (Previously known as Smart Legacy Global (“精明国际传承”))
Plan Code	: 0565
Product Abbreviation	: PHG
Launch Date	: 15 April 2026

PLAN DESCRIPTION

a) This product provides foreign currency indexing feature which allows the coverage to be indexed with global currencies such as United States Dollar (USD), Singapore Dollar (SGD), Chinese Yuan Renminbi (CNY), British Pound Sterling (GBP) and Australian Dollar (AUD).
b) This product is a limited pay investment-linked insurance policy with access to professionally managed Unit Funds with the benefit of the life insurance cover.
c) This plan provides coverage up to age 80, 90 and 100 years next birthday.
d) Premiums paid are used to purchase units in the Unit Fund(s). The policy value of this plan will vary directly with the performance of the Unit Fund(s).
e) Illustration Rule: This rule means any illustration is only quotable when Cash Value projected under the best estimate assumptions* is able to sustain (positive figures) until maturity. This is a requirement under then Investment Linked Business (BNMRHPD 029-36 Investment-linked Business). This rule is built in MPOS and FPMS.
f) *Best estimate assumptions are reflective of the actual performance of the underlying funds selected by the policy owner. In the event that the policy owner chooses multiple funds, the weighted fund growth based on the percentage of allocation of premiums into the respective funds will be used.
g) There’ll be no GSR for standard case at NB stage. For substandard cases; GSR loading will be applicable for the case that fulfils the new GSR rules under item Premium v.
h) The policy will lapse if the Total Investment Value equals to zero or below except when NLG is in effect.
i) Policy Charges include Insurance Charges, Policy Fee, Supplementary Charge, Partial Withdrawal Charge, Full Surrender Charge and Premium Holiday Charge, if applicable.
j) Chosen Sum Assured denotes the sum assured in the selected country’s currency, i.e. RM, USD, SGD, CNY, GBP and AUD.
k) Inception Sum Assured is the amount of benefit in RM. It is determined based on the Chosen Sum Assured and the Inception Currency Exchange Rate.
l) Prevailing Sum Assured is the amount determined based on the Chosen Sum Assured, and the highest Prevailing Currency Exchange Rate since the risk commencement date.
m) The Prevailing Currency Exchange Rate refers to the middle rate available at the 5.00pm session as published by Bank Negara Malaysia on each business day.
n) The Inception Currency Exchange Rate may fluctuate based on the date when the quotation is generated and subject to review from time to time. The inception currency exchange rate is determined based on the latest available currency exchange rate on the last business day of the month as of 3 weeks before the Mobile Point-of Sale (MPOS) release date, adjusted by an additional 5% buffer. The currency exchange rate refers to the middle rate available at the 5.00p.m. session, as published by Bank Negara Malaysia.
o) All premiums and benefits under this plan are payable in RM.

BENEFITS

1. Death Benefit

Upon death of the Life Assured, the Company shall pay the higher of the following in Ringgit Malaysia (RM):

a) Inception Sum Assured; or
b) Prevailing Sum Assured; or
c) Total Investment Value (“TIV”).

TIV is calculated at NAV at the next Valuation Date.

In the event death occurs before age of 5, the Company will pay the higher of the following:

- 100% of TIV; or
- the following percentage of the higher of Prevailing Sum Assured or Inception Sum Assured:

Age Next Birthday of the Life Assured preceding Death	Percentage (%) of the higher of Prevailing Sum Assured or Inception Sum Assured
1	20%
2	40%
3	60%
4	80%

Full life cover will be given from age 5 years next birthday.

Example:
The exchange rates used below are hypothetical for illustration purposes only, which do not reflect the actual rates.

Risk Commencement Date: 12 January 2027
Chosen Sum Assured: USD 1,000,000
Inception Currency Exchange Rate: 4.4000
Inception Sum Assured: RM4,400,000
The highest Prevailing Currency Exchange Rate for USD is locked at 4.5000 (at 19/1/2027) for the following period:

Date	Prevailing Currency Exchange Rate for USD
12/1/2027	4.1600
13/1/2027	4.1700
14/1/2027	4.1800
15/1/2027	4.1900
16/1/2027	4.2000
17/1/2027	4.2100
18/1/2027	4.2000
19/1/2027	4.5000
20/1/2027	4.1800

Assuming TIV is the lowest in the scenario below:

Scenario	Date of Death	Death Benefit
1	14/1/2027	Max (RM4,400,000, USD1,000,000 x 4.1800, TIV) = Max (RM4,400,000, RM4,180,000, TIV) = RM4,400,000
2	20/1/2027	Max (RM4,400,000, USD1,000,000 x 4.5000, TIV) = Max (RM4,400,000, RM4,500,000, TIV) = RM4,500,000 The Prevailing Sum Assured is determined based on the highest Prevailing Currency Exchange Rate of 4.5000 at 19/1/2027.

2. Total and Permanent Disability (TPD) Benefit

- If TIV > Max (Inception Sum Assured, Prevailing Sum Assured), 100% TIV is payable in one lump sum (or be retained with the Company).
- There may be circumstances where the TIV is retained upon TPD claim for the purpose of policy sustainability, e.g. for CI rider, waiver rider or other riders to continue.

- If TIV < Max(Inception Sum Assured, Prevailing Sum Assured), only TIV is payable in one lump sum. Excess Sum Assured not exceeding RM10,000,000 shall be paid in 3 annual instalments with the first being a lump sum of the Excess Sum Assured or RM2,000,000 whichever is lesser, and the balance of the Excess Sum Assured, will be payable in two equal, annual instalments of maximum RM4,000,000 each.
- There may be circumstances where the TIV is retained upon TPD claim for the purpose of policy sustainability, e.g. for CI rider, waiver rider or other riders to continue.
- Parts (a) and (b) only applies for TPD occurring prior to the policy anniversary on which the Life Assured attains age 75 next birthday.
- The TPD cover for child below age 5 next birthday is subject to the lien as per Death Benefit. Full TPD cover will be given from age 5 next birthday onwards.
- The maximum TPD Benefit payable under this and all policies and riders on the same life is RM10,000,000 per life (excluding group policies).

Note: Excess Sum Assured = Max (Inception Sum Assured, Prevailing Sum Assured) minus TIV

3. Loyalty Bonus

A percentage (%) of BuP, where BuP is the lowest of the initial BuP or any subsequent amendment made to the BuP will be credited into TUPA starting from the end of 10th policy year and subsequently every 10 years until maturity, subject to the following conditions:

a) the policy is in force; and
b) all premiums are paid up-to-date.

The percentage (%) of BuP for Loyalty Bonus will vary based on premium payment term as follows:

Premium Payment Term	% of BuP
5	40%
10 & 20	80%

Note: When a partial withdrawal is made on IPA before the bonus payout, the Loyalty Bonus will be reduced proportionately by the partial withdrawal amount from IPA over the Total Investment Value at the time of partial withdrawal.

Example:

Scenario 1: Only 1 partial withdrawal is made:

Partial withdrawal (50% of TIV):
At 9th policy year, customer made a partial withdrawal of RM50,000
At the time of partial withdrawal, TIV = RM100,000

The Loyalty Bonus will be adjusted accordingly as below:

Premium Payment Term	% of BuP
5	40% x (1 – 50%) = 20%
10 & 20	80% x (1 – 50%) = 40%

Scenario 2: 2 partial withdrawals are made:

1st partial withdrawal (80% of TIV):
At 8th policy year, customer made a partial withdrawal of RM80,000
At the time of partial withdrawal, TIV = RM100,000

2nd partial withdrawal (50% of TIV):
At 9th policy year, customer made a partial withdrawal of RM10,000
At the time of partial withdrawal, TIV = RM20,000

The Loyalty Bonus will be adjusted accordingly as below:

Premium Payment Term	% of BuP
5	40% x (1 – 80%) x (1 – 50%) = 4%
10 & 20	80% x (1 – 80%) x (1 – 50%) = 8%

4. Maturity Bonus

Upon maturity, a percentage (%) of BuP, where BuP is the lowest of the initial BuP or any subsequent amendment made to the BuP; will be payable upon:

a) maturity of the policy; or
b) when death occurs on or after the policy anniversary on which the life assured has attained age 80 years next birthday for coverage term up to age 90; or
c) when death occurs on or after the policy anniversary on which the life assured has attained age 90 years next birthday for coverage term up to age 100;

provided the policy is in force and all premiums are paid-up-to-date.

The percentage of Maturity Booster varies by the premium payment term and coverage term as follows:

Premium Payment Term	% of BuP	
	Coverage Term < 25 years	Coverage Term ≥ 25 years
5	100%	200%
10 & 20	200%	300%

Note: When a partial withdrawal is made on IPA before the Maturity Bonus payout, the Maturity Bonus will be reduced proportionately by the partial withdrawal amount from IPA over the Total Investment Value at the time of partial withdrawal.

5. Additional Maturity Bonus

Upon maturity, an additional maturity bonus equivalent to 4% of Inception Sum Assured will be payable provided the policy is in force and all premiums are paid up-to-date.

Notes:

a) The Inception Sum Assured is the lower of the initial Inception Sum Assured or current Inception Sum Assured. If the reduction of Inception Sum Assured is due to partial withdrawal, the current Inception Sum Assured shall refer to the Inception Sum Assured before partial withdrawal.
b) When a partial withdrawal is made on IPA before the bonus payout, the Additional Maturity Bonus will be reduced proportionately by the partial withdrawal amount from IPA over the Total Investment Value at the time of partial withdrawal.

Example:
Partial withdrawal (60% of TIV):
Initial Inception Sum Assured: RM2,000,000
At 9th policy year, customer made a partial withdrawal of RM300,000
At the time of partial withdrawal, TIV = RM500,000

After 24 months, Cover Revive kicks in and the current Inception Sum Assured is RM1,950,000.
The additional maturity bonus = 4% x (1 - 60%) x RM2,000,000 = RM32,000

6. Maturity Benefit

The TIV, Maturity Bonus and Additional Maturity Bonus, less indebtedness will be payable upon maturity; if any. TIV is calculated at NAV at the next Valuation Date.

`

7. Cover Revive

The Chosen Sum Assured will bounce back to the amount before the partial withdrawal, subject to a maximum of RM250,000 per life (aggregate under all policies and any future plans with similar benefit), on the monthly due date on or after 24 months from the partial withdrawal date.

Notes:

i. Within 24 months from the partial withdrawal date, the payout for all benefits, e.g. Death, and TPD Benefit, will be calculated based on the reduced Chosen Sum Assured after withdrawal.
ii. The bounce back and reduction amount of Chosen Sum Assured will be calculated based on the higher of the following:
    - Inception Currency Exchange Rate; or
    - Highest Prevailing Currency Exchange Rate from the risk commencement date till the point of partial withdrawal is made.
iii. If the policyholder requested to increase/decrease the Chosen Sum Assured within 24 months from the partial withdrawal date, the Chosen Sum Assured will not bounce back and remains as the increased/reduced Chosen Sum Assured as requested by the policyholder.
iv. Upon any claim on basic policy and supplementary riders (if any) on the Life Assured, the Chosen Sum Assured will not bounce back.
v. Upon any claim notification on basic policy and supplementary riders on the Life Assured, Cover Revive will be suspended and resume only if the claim has been rejected or withdrawn.
vi. If the Life Assured have multiple policies or any future plans with similar benefit, upon any claim notification or claims admitted under any one of the policies, the Cover Revive feature will be suspended or voided for all these policies under the same Life Assured.
vii. Please refer to Appendix 3 for detailed scenario.

8. No-lapse Guarantee

There is a no-lapse guarantee for the first 8 policy years starting from the day the policy is inforce. This means that the policy and its attachable supplementary benefits shall continue to remain inforce even if the TIV becomes zero, subject to the following conditions:

a) Regular premium is payable consistently (Note: for 5-pay, the premium will cease at 5th policy year, it is still qualified for no-lapse guarantee up to 8 years).
b) No premium holiday is allowed.
c) No partial withdrawal is allowed.
d) No reduction or termination of GSR (if any).

When the no-lapse guarantee is in effect, all benefits (after deducting any deficit amount in the TIV) shall be payable upon a valid claim event, given the conditions above are met.

However, the policy will lapse if the TIV becomes zero in any year from the 9th policy year onwards.

Policy Charges due after the no-lapse guarantee takes effect will be deducted when
(a) the Budgeted Premium and Great Saver Rider premium (if any) of this policy is paid; or
(b) the Investment Top-ups is paid
until the fees and charges due are fully paid.

Policy Charges due after the no-lapse guarantee takes effect will also be deducted from any benefits payable under this policy.

Prestige Heritage Global (Plan Code: 0565)

(Regular Premium Investment-Linked Insurance Plan)

NET ASSET VALUE (NAV)

i. NAV

The price at which the policy owner buys the units in a fund and sells the units back to the fund.

ii. Determination of Price

NAV of each fund are determined daily, after the valuation of the assets of that fund.

PREMIUM

i. Premium payment mode

Regular premium, choice of yearly, half-yearly, quarterly and monthly

ii. Premium mode factors

Modal premium is determined before annual premium where the annual premium is M times of the Modal premium.

Mode of Modal Premium	M
Annually	1
Half-yearly	2
Quarterly	4
Monthly	12

iii. Premium Payment Method

- Internet Banking, Credit Card, JomPay, GIRO, ePAY or Cash / Cheque payment via Collecting Bank (over-the-counter, ATM & cheque deposit machine). However, cash and cheque are not allowed for monthly mode of payment.
- Inclusion of GAE upon inception can be paid via credit card.
- SPTU during CS stage is only payable by JomPay.

iv. Advance Premium

APA account is not applicable. Follow existing IL plans' practice, all premium paid will be allocated to the funds as chosen by the policy owner.

v. Great Saver Rider (GSR)

NB Stage:

- Only available for substandard case.

CS Stage:

- During the premium payment term, if customer request to increase premium due to increase of Sum Assured or simply increase premium without increase of coverage, the additional premium will be treated as GSR.

General rules for GSR (applicable for GSR included at both NB and CS stage):

- GSR premium will follow Budgeted Premium (BuP) in terms of fund selection and payment mode.
- The Annexure applicable is "GSRZ03".
- Customer **is ALLOWED** to amend GSR premium at CS stage. However, if there is any reduction or termination of GSR, the No-lapse Guarantee will no longer be applicable.

vi. Balancer

NB Stage:

Any excess in premium after SAM rule will be treated as Balancer.

Age at Entry	Sum Assured Multiple (SAM) Rule
1 – 16	60
17 – 25	55
26 – 35	50
36 – 45	35
46 – 55	25
56 and above	15

Example:

- Life Assured: 30 ANB, Male Non-smoker
- SAM rule of 50
- Bought PHG with the following details:

Premium Payment Term	5 years
Coverage Term	Up to age 80
Chosen Sum Assured	USD500,000
Inception Currency Exchange Rate	4.4
Inception Sum Assured	USD500,000 x 4.4 = RM2,200,000
BuP	RM50,000

- RM44,000 of the premium will be considered as Insurance Premium whereas the remaining RM6,000 will be considered as Balancer.

CS Stage:

For reduction of sum assured, any excess in premium after SAM rule will be treated as Balancer. The recalculation of the Insurance Premium and Balancer is based on the higher of Inception Sum Assured or Prevailing Sum Assured upon reduction of sum assured.

Example:

- Life Assured: 30 ANB, Male Non-smoker
- SAM rule of 50
- Bought PHG with the following details:

Premium Payment Term	5 years
Coverage Term	Up to age 80
Chosen Sum Assured	USD1,000,000
Inception Currency Exchange Rate	4.4
Inception Sum Assured	USD1,000,000 x 4.4 = RM4,400,000
BuP	RM100,000

- At CS stage, reduce Chosen Sum Assured to USD500,000 without reducing BuP

Chosen Sum Assured	USD500,000
Inception Currency Exchange Rate	4.4
Inception Sum Assured	USD500,000 x 4.4 = RM2,200,000
Highest Prevailing Currency Exchange Rate since RCD	4.8
Prevailing Sum Assured	USD500,000 x 4.8 = RM2,400,000

- The Prevailing Sum Assured will be used for the calculation of Insurance Premium and Balancer as it is higher than Inception Sum Assured. Hence, RM48,000 of the premium will be considered as Insurance Premium whereas the remaining RM52,000 will be considered as Balancer.

vii. Golden Age Enhancer (GAE)

a) A policyholder can include GAE at inception of the policy.
b) The minimum entry age to be eligible for GAE is age 55 next birthday.
c) Minimum GAE amount is one time of BuP and it is fixed at one time of BuP. If inclusion of GAE occurs at policy inception due to failing Illustration Rule, GAE will then be allowed to exceed the amount of BuP.
d) For cases with premium payment mode other than yearly mode, first policy year BuP need not be fulfilled before GAE is payable.

PREMIUM ALLOCATION

i. Types of Account

Premiums paid for this policy will be allocated into **Insurance Premium Account (IPA) or Top-Up Premium Account (TUPA)** as follows:

IPA	TUPA
1) Insurance Premium 2) Balancer	1) GSR 2) SPTU 3) GAE

No transfer of value between IPA and TUPA is allowed.

ii. Insurance Premium / Balancer

Allocation Rate: 100% from 1st policy year onwards.

iii. Single Premium Top-Ups / GAE / GSR

Allocation Rate: 95%

CHARGES

Overview of charges that are deducted from IPA & TUPA

Charges	IPA	TUPA	Remarks
Supplementary Charge	√	x	
Partial Withdrawal Charge	√	x	
Full Surrender Charge	√	x	
Premium Holiday Charge	√	x	
Insurance Charge	√	√	Proportionately deducted from both IPA & TUPA
Policy Fee	√	√	Proportionately deducted from both IPA & TUPA

i. <u>Charges deducted from IPA only</u>

a) Supplementary Charge

- Supplementary Charge will be deducted on every policy month by deducting sufficient number of units from the TIV in IPA.
- It will be deducted even though the policy is on premium holiday. Minimum TIV from all funds in IPA shall be RM20 and more in order to deduct Supplementary Charge, if the aggregated TIV amount in IPA is less than RM20, deduction of Supplementary Charge will be suspended.
- Supplementary Charge is chargeable on a monthly basis based on the number of Supplementary Charge deducted as follows:

Number of Supplementary Charge Deducted	Supplementary Charge (as % per annum of TIV in IPA)		
	5-pay	10-pay	20-pay
1 – 12	5.85%	9.25%	18.50%
13 – 24	5.35%	8.75%	17.50%
25 – 36	4.85%	8.25%	16.50%
37 – 48	4.35%	7.75%	15.50%
49 – 60	3.85%	7.25%	14.50%
61 – 72	0.00%	6.75%	13.50%

- In the event that IPA is insufficient to deduct the Supplementary Charge and there is TIV in TUPA, the Supplementary Charge will not be deducted from TUPA. The Supplementary Charge will be suspended and will not accumulate while the policy continues to be in force with the TIV in TUPA. The Supplementary Charge shall resume in accordance to the percentage based on the number of Supplementary Charge deducted immediately after the IPA has sufficient TIV.

b) Partial Withdrawal Charge

- Partial Withdrawal Charge will be deducted from the withdrawal amount.
- Only the withdrawal amount from IPA will be subject to Partial Withdrawal Charge. Withdrawal of TIV from TUPA, if any, is not subject to Partial Withdrawal Charge.
- The percentage chargeable will be based on the number of Supplementary Charge deducted as follows:

Number of Supplementary Charge Deducted	Partial Withdrawal Charge (as % of Withdrawn Amount from IPA)		
	5-pay	10-pay	20-pay
1 – 12	25.0%	45.0%	45.0%
13 – 24	20.0%	40.0%	40.0%
25 – 36	15.0%	30.0%	30.0%
37 – 48	10.0%	25.0%	25.0%
49 – 60	7.5%	20.0%	20.0%
61 – 72	0.0%	10.0%	10.0%

Note: Any withdrawal shall first be made from the TUPA, if any, and followed by the IPA.

c) Full Surrender Charge

- Full Surrender Charge will be deducted from the surrender amount.
- Upon full surrender, a percentage of the TIV in IPA will be deducted as Full Surrender Charge. TIV in TUPA, if any, is not subject to Full Surrender Charge.
- The percentage chargeable will be based on the number of Supplementary Charge deducted as follows:

Number of Supplementary Charge Deducted	Full Surrender Charge (as % of Surrender Amount from IPA)		
	5-pay	10-pay	20-pay
1 – 12	25.0%	45.0%	45.0%
13 – 24	20.0%	40.0%	40.0%
25 – 36	15.0%	30.0%	30.0%
37 – 48	10.0%	25.0%	25.0%
49 – 60	7.5%	20.0%	20.0%
61 – 72	0.0%	10.0%	10.0%

d) Premium Holiday Charge

- Premium Holiday Charge will be imposed upon non-payment of premiums (inclusive of BuP and GSR, if any) at 2 policy months from the next Premium Due Date.
- Premium Holiday Charge will be deducted on every policy month by deducting sufficient number of units from the TIV in IPA.
- Minimum TIV from all funds in IPA shall be RM20 and more in order to deduct Premium Holiday Charge, if the aggregated TIV amount in IPA is less than RM20, deduction of Premium Holiday Charge will be suspended.
- Premium Holiday Charge will be based on the number of Supplementary Charge Deducted as follows:

Number of Supplementary Charge Deducted	Premium Holiday Charge (as % of Total Outstanding Premium)		
	5-pay	10-pay	20-pay
1 – 12	5.0%	9.0%	9.0%
13 – 24	5.0%	9.0%	9.0%
25 – 36	5.0%	9.0%	9.0%
37 – 48	5.0%	9.0%	9.0%
49 – 60	5.0%	9.0%	9.0%
61 – 72	0.0%	9.0%	9.0%

- In the event that IPA is insufficient to deduct the Premium Holiday Charge and there is TIV in TUPA, the Premium Holiday Charge will not be deducted from TUPA. The Premium Holiday Charge will be suspended and will not accumulate while the policy continues to be in force with the TIV in TUPA. The Premium Holiday Charge shall resume in accordance to the percentage based on the number of Premium Holiday Charge deducted immediately after the IPA has sufficient TIV.
- No refund of Premium Holiday Charge when customer pays part or all of outstanding premiums.

ii. <u>Charges deducted from both IPA and TUPA proportionately</u>

The following charges will be deducted from both IPA and TUPA proportionately.The proportion of charges to be deducted from the respective IPA and TUPA shall be determined by dividing the TIV in each account by the TIV of both IPA and TUPA.

a) Insurance Charge

- Insurance charges depend on the attained age next birthday, gender, occupation class, medical rating and smoking status, where applicable. The Company may vary these insurance charges at each policy anniversary.
- Insurance charges will be deducted in respect of Net Sum Assured.
- Net Sum Assured = Max (Inception Sum Assured, Prevailing Sum Assured) – (TIV in IPA + TUPA), subject to minimum of zero
- The monthly insurance charges are calculated as the Net Sum Assured times one twelfth of the risk rates corresponding to the attained age.
- These charges will be deducted by selling units already allocated to the Policy, at the NAV on the next Valuation Date following the due date of the insurance charges.

b) Policy Fee

A monthly administration fee of RM6 will be deducted by selling units already allocated to the Policy from the policy owner's funds, at the NAV at the next Valuation Date, at each policy month.

c) Fund Management Charge

- A fund management charge will be deducted at each asset valuation before determining the NAV. Unit prices will reflect the deduction.
- The management charge to be deducted is:

$$\frac{t}{250} \times K\%^* \times \text{Value of Fund}$$

where:

t = the number of business days from the preceding Valuation Date to the Current Valuation;

K%* = the percentage charge (subject to the Investment Committee's approval) for the appropriate fund as follows:

Fund	K% *
F17 Lion Enhanced Equity Fund	1.50
F18 Dana Gemilang	1.50
F1 Lion Balanced Fund	1.00
F4 Lion Fixed Income Fund	0.50
F5 Lion Progressive Fund	1.35
F6 Dana Sejati	0.50
F21 Lion Advanced Strategic Fund	1.35
F22 Lion Small Mid Cap Fund	1.40
F26 Lion ASEAN Fund	1.50
F10 Lion US-i Fund	0.75
F11 Lion UK-i Fund	0.75
F12 Lion AU-i Fund	0.75
F27 Lion Equity Global Sustainability Fund	1.50
F28 Lion Physical Gold Fund	0.60

* subject to management changes

- Value of Fund refers to the value of the appropriate fund as determined by the Company.

FLEXIBLE OPTIONS

i. Single Premium Top-Ups (SPTU)

CS Stage:

- After the policy is inforce, SPTU can be included as Investment Top-Up at any time provided that the current year's and all previous years' BuP have been fulfilled.
- Minimum SPTU is RM1,000.
- Any policy changes, i.e. increase SA, the required premium (based on sustainability test and subject to the min of RM1,000) will be collected as SPTU.

ii. Premium Increment

During Premium Payment Term:

A policyholder can increase the regular BuP subject to the following conditions:

a) Increase in premium will be in the form of GSR and can take effect from the next premium due date subject to the constraints below:

Mode of Payment	Minimum Increment (RM)
Annually	240
Half-yearly	120
Quarterly	60
Monthly	20

b) The policyholder can choose to keep the Chosen Sum Assured unchanged or increase the Chosen Sum Assured to the maximum Chosen Sum Assured (based on sustainability test) allowed.
c) The increase in regular BuP (GSR) during Premium Payment Term (5, 10 or 20; where applicable) is payable up to premium payment term.

Example:
Customer is paying RM20,000 per annual for PHG – 5 pay, if he request to increase premium to RM20,800 at the end of 2nd year, the extra premium of RM800 will be treated at GSR, with GSR allocation rate of 95%, from 3rd to 5th years.

iii. Decrease in Premium

A policy owner can decrease the regular premium subject to the following conditions:
a) Decrease in premium can take effect from the next premium due date.
b) For policy amendments (i.e. amendment on the premium) after policy is in force, agent will use ILP Alteration Calculator to check for premium sufficiency.

Mode of Payment	Minimum Premium after the Decrease (RM)	
	5-Pay & 10-Pay	20-Pay
Annually	1,500	1,200
Half-yearly	750	600
Quarterly	375	300
Monthly	125	100

iv. Partial Withdrawal

Monies can be withdrawn by selling some of the units at the NAV in one or more of the invested funds subject to the following conditions:
a) The minimum amount for partial withdrawal is RM1,000 after deducting Partial Withdrawal Charge and indebtedness, if any.
b) The aggregate value of the remaining units in all funds must be at least RM1,000 after deducting Partial Withdrawal Charge and indebtedness, if any.
c) For partial withdrawal, the Chosen Sum Assured will be reduced by the withdrawn amount calculated based on the higher of the following:
   - Inception Currency Exchange Rate; or
   - Highest Prevailing Currency Exchange Rate from the risk commencement date till the point of partial withdrawal is made.

   If the Chosen Sum Assured is reduced to an amount lower than the minimum SA of RM6,000 after conversion, the Chosen Sum Assured will be set to an equivalent amount of RM6,000 after conversion.
d) The Chosen Sum Assured will bounce back to the amount before withdrawal, on the monthly due date on or after 24 months from the partial withdrawal date.
e) Partial withdrawal is subject to Partial Withdrawal Charge. Please refer to Charges i.b) **Partial Withdrawal Charge**.

Example 1:
Chosen Sum Assured = USD500,000
Inception Currency Exchange Rate = 4.4
Highest Prevailing Currency Exchange Rate since RCD till partial withdrawal = 4.8
TIV = RM2,500,000 customer requested to exercise
Partial withdrawal amount = RM2,400,000

After the partial withdrawal is made, the Chosen Sum Assured is reduced to 0 which is lower than RM6,000 after conversion. By following rules (c) above, the Chosen Sum Assured for this policy will be set to an equivalent amount of RM6,000 after conversion i.e. USD1,250.

	Before partial withdrawal	After partial withdrawal
Chosen Sum Assured	USD500,000	USD500,000 – (2,400,000 / 4.8) = 0 It will set to 6,000 / 4.8 = USD1,250
Inception Sum Assured	RM2,200,000	1,250 x 4.4 = RM5,500
Prevailing Sum Assured	RM2,400,000	1,250 x 4.8 = RM6,000

Example 2:
Customer - 30 ANB, Male Non-smoker
Chosen Sum Assured = USD500,000
BuP = RM100,000
Inception Currency Exchange Rate = 4.4
Highest Prevailing Currency Exchange Rate since RCD till partial withdrawal = 4.8
The split of Insurance Premium and Balancer will use SAM rule of 50. Customer requested to make a partial withdrawal of RM480,000 and premium remains as RM100,000. After partial withdrawal, the calculation is as follows:

	Before partial withdrawal	After partial withdrawal
Chosen Sum Assured	USD500,000	USD500,000 – (480,000 / 4.8) = USD400,000
Inception Sum Assured	RM2,200,000	400,000 x 4.4 = RM1,760,000
Prevailing Sum Assured	RM2,400,000	400,000 x 4.8 = RM1,920,000
BuP	RM100,000 (The calculation of Insurance Premium and Balancer is based on RM2.2 mil at policy inception)	RM100,000 (The calculation of Insurance Premium and Balancer is based on max (RM1.76 mil, RM1.92 mil) = RM1.92 million after partial withdrawal)
Insurance Premium	RM44,000	RM38,400
Balancer	RM56,000	RM61,600

v. Fund Switching

A policy owner can sell units in any one fund at the NAV and purchase units in any of the other funds at the NAV at no charge, at any time after the policy has turned in force. The minimum amount sold to purchase units in another unit fund is RM1,000 per fund. However, if the fund is less than RM1,000, it can be done provided all the units in that fund are switched. More than one switch can be done at one time and this will be considered as a single switch.

vi. Changing Premium Apportionment

A policyholder can alter the premium apportionment at any time. After the Company receives the alteration request, the next and all future premiums will be apportioned to the Unit Funds in the new proportions subject to the minimum BuP listed in the table below:

Mode of Payment	Minimum Amount Apportionable to Each Fund (RM)
Annually	12
Half-Yearly	6
Quarterly	3
Monthly	1

vii. Currency Switching Option

A policyholder can switch the currency from 2nd policy year onwards without any charges. Upon switching:

a) The Chosen Sum Assured will be adjusted based on the higher of Inception Sum Assured or Prevailing Sum Assured divided by the Prevailing Currency Exchange Rate of the revised currency.
b) The Prevailing Sum Assured after switching shall be based on the higher of Inception Sum Assured or Prevailing Sum Assured, from the previous currency.
c) The Inception Sum Assured shall remain unchanged.

Any revision in the currency will take effect from the next Insurance Charge due date.

Example:
Customer requested to switch currency from USD to CNY at 3rd policy year.

Scenario 1: Inception Sum Assured > Prevailing Sum Assured

	Before Switching	After Switching
Currency	USD	CNY
Chosen Sum Assured	USD 1,000,000	Max(RM4,500,000, RM4,200,000) / 0.5 = RM4,500,000 / 0.5 = CNY 9,000,000
Currency Exchange Rate	Inception: 4.5 Prevailing (highest since inception): 4.2	0.5 (At the point of switching)
Inception Sum Assured	RM4,500,000	RM4,500,000
Prevailing Sum Assured	RM4,200,000	RM4,500,000

Scenario 2: Inception Sum Assured < Prevailing Sum Assured

	Before Switching	After Switching
Currency	USD	CNY
Chosen Sum Assured	USD 1,000,000	Max(RM4,200,000, RM4,500,000) / 0.5 = RM4,500,000 / 0.5 = CNY 9,000,000
Currency Exchange Rate	Inception: 4.2 Prevailing (highest since inception): 4.5	0.5 (At the point of switching)
Inception Sum Assured	RM4,200,000	RM4,200,000
Prevailing Sum Assured	RM4,500,000	RM4,500,000

CHANGES IN SUM ASSURED

Any changes in the Chosen Sum Assured will take effect from the next Insurance Charge due date:

i. Increase in Chosen Sum Assured

Allowed up to the maximum Chosen Sum Assured (based on the sustainability test); and subject to underwriting. The increase in premium will be treated as GSR.
As for increase in SA after premium payment term, the ILP Calculator will only enable the SPTU for sustainability calculation.

ii. Decrease in Chosen Sum Assured

a) Automatic Reduction
When a partial withdrawal is made, the Chosen Sum Assured will automatically be reduced to the Chosen Sum Assured before the withdrawal less the amount withdrawn within 24 months from the partial withdrawal, subject to the minimum SA of RM6,000. The recalculation of the split of Insurance Premium & Balancer will be done after the reduction of sum assured. After 24 months from the partial withdrawal date, the Chosen Sum Assured will bounce back to the amount before the withdrawal. Partial withdrawal is subject to Partial Withdrawal Charge.

b) Voluntary Reduction
Policyholder may voluntarily reduce the Chosen Sum Assured, subject to the minimum Chosen Sum Assured limit as stated under Underwriting Guidelines item i).

ALLOWANCE TO VARY CHARGES

The Company may increase the charges for existing policies in specified circumstances, up to specified limits. The charges that are allowed for changing are: *Supplementary Charge, Partial Withdrawal Charge, Full Surrender Charge, Premium Holiday Charge, Policy Fee, Fund Management Charge and Insurance Charge Rates.* The Company will give at least 3 months advance notice for

any upward revision of the charges. However, for any downward revision of the charges, the Company reserves the right to implement it immediately without giving notice.

ALLOWANCE TO VARY PREMIUM

In the event that the sustainability of the policy is reduced due to a revision of insurance charge of the basic plan or its attaching riders, the Company may increase GSR premium to support the increase in insurance charge by giving at least 3 months advance notice.
