2. Guaranteed Income

a) The Guaranteed Income will be payable <u>every year</u> for 10 years as per the details below.

Entry Age Next Birthday	Guaranteed Income
Entry Age ≤ Age 50	Payable starting from the end of policy year of age 60 years next birthday for 10 years
Entry Age > Age 50	Payable starting from the end of premium payment term for 10 years

Please refer to **appendix 3** for illustrations of the Guaranteed Income benefit payout.

b) Calculation for Guaranteed Income: Refer to **appendix 1** for the Guaranteed Income Table.

3. Partial Surrender

a) <u>Voluntary Partial Surrender</u>
Not allowed.

b) <u>Automatic Partial Surrender</u>

Partial surrender will be exercised when there is any request in premium reduction. Please refer to the details of "Decrease Premium" under the section of "Premium" for further details.

4. Full Surrender

Allowed.

Note:
Before 1st June 2014 (based on policy submission date):
Upon full surrender before the payout period for Guaranteed Income, an 8% tax will be imposed on the **total premiums eligible for tax relief**. Such tax penalty will be deducted from the surrender value and be paid to the Inland Revenue Board by the Company.

On or after 1st June 2014 (based on policy submission date):
Upon full surrender before the payout period for Guaranteed Income, an 8% tax will be imposed on the **surrender value**. Such tax penalty will be deducted from the surrender value and be paid to the Inland Revenue Board by the Company.

Example 1:
Assumption:
Male, Non-smoker
Policy submission date: 31 May 2014
Entry Age: 30 Next Birthday
Annual Premium: RM5,000
Premium Payment Term (PPT) = 10 years

If the policyholder surrenders the policy at year 10, say on 30 June 2024 (after premium payment term of 10 years),
Total premiums paid = RM50,000
As the policy submission date is before 01 June 2014, the tax penalty will be imposed on the total premiums eligible for tax relief:
Premiums eligible for tax relief = RM3,000 yearly from year 2014 to year 2021 = RM24,000
Assume that the Surrender Value (SV) = RM30,000

Upon full surrender, the policyholder will receive the net of SV
= SV – 8% tax on total premiums eligible for tax relief
= SV – 8% x RM24,000
= RM30,000 – RM1,920
= RM28,080.00

Example 2:
Assumption:
Male, Non-smoker
Policy submission date: 01 June 2014
Entry Age: 30 Next Birthday
Annual Premium: RM5,000
Premium Payment Term (PPT) = 10 years

If the policyholder surrenders the policy at year 10, say on 30 June 2024, the tax penalty will be imposed on the total surrender value as the policy submission date is on 01 June 2014:
Assume that the Surrender Value (SV) = RM30,000

Upon full surrender, the policyholder will receive the net of SV
= SV – 8% tax on total surrender value
= SV – 8% x RM30,000
= RM30,000 – RM2,400
= RM27,600.00

PREMIUM

1. Premium payment mode and modal factors

This is an annual premium plan but it can also be purchased with half-yearly, quarterly or monthly premium instalments.

In case where premium payments are made other than annual premium, the following factors are to be applied to the annual premium to arrive at the instalment premium:

Mode of premium payments	Factors
Half-yearly	0.5100
Quarterly	0.2575
Monthly	0.0875

2. Premium payment method

Cash, GIRO, Banker's Order, cheque and credit card are allowed for all modes of premium payments. However, cash and cheque are not allowed for monthly mode of payment.

3. Premium payment terms

a) The policyowner can choose to pay either 10 years or up to the policy year of age 60 years next birthday.
b) Please refer to appendix 2 for the premium payment term by entry age for the option of paying up to the policy year of age 60 years next birthday.

4. Backdating

Allowed up to one year from the date of issue of the policy. Standard backdating conditions apply and overdue interest will be charged if backdating is more than 6 months.

5. 1 set of premium rate

Not applicable as this is a premium-based product where the policyowner has to choose the preferable amount of premium to be paid.

6. Increase Premium

Not applicable

7. Decrease Premium

Policyowner can request to decrease the premium, subject to the following conditions:

a) Annual premium (**before** decreasing in premium) must be more than RM3,000
b) Revised annual premium (**after** decreasing in premium) must be at least RM3,000.

Upon decreasing in premium:

a) Partial surrender will be exercised and the policyowner will receive the surrender which is calculated based on the amount reduced in annual premium; and
b) Guaranteed Income will then be revised and reduced accordingly
c) For policies submitted on or after 01 June 2014, there will be an 8% tax will be imposed on the partial surrender value if partial surrender is exercised before the payout period for Guaranteed Income. Such tax penalty will be deducted from the partial surrender value and be paid to the Inland Revenue Board by the Company.

Example 1:
Annual Premium (before decreasing in premium) = RM2,500

The policyowner is not allowed to decrease the annual premium as the annual premium is not more than RM3,000

Example 2:
Assumption:
Male, Non-smoker
Policy submission date: 31 May 2014
Entry Age: 30 Next Birthday
Annual Premium (before decreasing in premium) = RM5,000
The maximum allowable amount to be reduced is RM2,000. Meaning to say, the revised annual premium will be RM3,000 if the policyowner requests to reduce the annual premium in accordance to the maximum allowable amount which is RM2,000. The Guaranteed Income will then be revised and reduced accordingly.

As the policy submission date is before 01 June 2014, there will be no 8% tax penalty.

Assume that the Partial Surrender Value (SV) (calculated based on the premium reduction of RM2,000) at year 10 = RM12,000
Upon partial surrender being exercised at year 10, the policyholder will receive the Partial SV = RM12,000

Example 3:
Assumption:
Male, Non-smoker
Policy submission date: 01 June 2014
Entry Age: 30 Next Birthday
Annual Premium (before decreasing in premium) = RM5,000

The maximum allowable amount to be reduced is RM2,000. Meaning to say, the revised annual premium will be RM3,000 if the policyowner requests to reduce the annual premium in accordance to the maximum allowable amount which is RM2,000. The Guaranteed Income will then be revised and reduced accordingly.

As the policy submission date is 01 June 2014, there will be an 8% tax penalty imposed on the partial surrender value.
Assume that the Partial Surrender Value (SV) (calculated based on the premium reduction of RM2,000) at year 10 = RM12,000

Upon partial surrender being exercised at year 10, the policyholder will receive the net of Partial SV
= Partial SV – 8% tax on Partial SV
= Partial SV – 8% x RM12,000
= RM12,000 – RM960
= RM11,040.00

DISCOUNT
